Thread: [Ridges SMS Bomber Giveaway | Source File Download | Web Bomber | PHP | Link Posted](#)

Reticulum - May 26, 2012, 1:59 am

This thread is 8 months old, stop asking for a link, it was posted and obviously the site was no longer working. If I have some free time I'll re-upload the source.

Works like a charm.

Just to clear somethings up, I'm not claiming the "code" as my own just the site/hosting.

The code belongs to the respected owner/creator.

LifelsBeautiful - July 27, 2013, 7:47 pm

I tested it on myself with quantities of 1, 10 and 100 texts. None of them worked. Is something wrong with it? I filled out my complete phone number, the "From" section, the "Subject" section, a very short message in the "Your Message" section and specified different numbers of texts to send in the "Amount" section. Afterward, I tried it again and specified my carrier. Still, no luck.

I'm interested, PM with details?

Does it work on all carriers? or only US GSM/CDMA or does it work internationally?

I know only certain bombers work on certain multiplexes.

i will find it educative

Seriously now? Is the red bold text not big and obvious enough? Don't grave dig threads, especially when the OP has made it clear that it is not available anymore.
