Thread: [100% Working Daily Updated Private Proxies Every Country! + 100% Working School Proxy](#)

U5021667 - May 27, 2012, 4:11 am

Found these 2 amazing websites, thought I'd share.

<http://bypasssthisfor.me>

<http://proxiesfor.me>

Proxiesfor.me offers 100's of working proxies, and they update them daily.
Best of all you can view them RAW + Country Based. <http://proxiesfor.me/raw/>

Bypasssthisfor.me is a simple proxy, and it can be viewed on 95% of all office + school computers that block certain website(s). Use it to get around to your favorite porn website! Haha...

Tested and worked at my high school.

It has been approx. 5 years since I was at school so forgive me for my lack of knowledge but can you not just change your browsers proxy information with ip:port addresses from a website such as HMA?

I remember doing this when I was at school however the Department of Education may have finally caught up and updated their systems slightly...

<http://www.proxiesfor.me> provides just that... Daily updated proxies (private) for you to do that.

It works great!

And if you can't/aren't allowed to do that just use <http://www.bypasssthisfor.me>

But yes that works too.
