Excuse me, if you see my last posts and Pm's you'd see I've been doing a HELL of a lot of work recently for people...absolutely free. The least i can do is ask for a little money just to show appreciation. Besides, i don't watermark my work like some people do.. which means he can take this without paying at all.

You're excused, even if you have been a lot of work recently for people (which I do not confirm, nor care), it doesn't mean that you charge an individual for something that is definitely not even worth the amount that you requested.

That'd be like a store giving away discount vouchers and then selling one of them for something that they're not worth simply because of what they did previously.

I understand your point fully, but you have to take into consideration that since i do not take commissions currently, i rely fully on donations, and so far... not a lot of people are generous enough to donate :P Anyways, this discussion has gone on for long enough.

OP: you may use the signature as fore mentioned free of charge.
