Tarn's Anime Wallpaper thing

Need lots of wallpapers/photos for your favorite anime but do not want to take the time to find, save, and rename them? Then look no further! I will get you wallpapers for any anime character, show, ect. that YOU want.

I will be using [konachan](#) to get you the the images you want. Here is a huge list of characters [tags](#). If you do not want to look for a tag, than don't. I will make sure they have it, cause they always do. You can choose either NSFW & SFW or just SFW for your collection.

Finding things on that site is a bit confusing so just leave it to me.

I will get you the large high quality versions of each picture not the tiny preview ones!

Just because you can't find what you are looking for doesn't mean I can't :P

The pictures will be named 1Tag, 2Tag, 3Tag, and so on except Tag will be replaced with whatever tag you had chosen.

Quality example: <https://i.imgur.com/fRYxa.jpg>

Application

```
Code [color=#00BFFF]Name (HF):[/color]
[color=#00BFFF]Show/Character:[/color]
[color=#00BFFF]Include Explicit (Yes/No):[/color]
```

It's alright, at least I still got a couple pics.
Vouch.

KinGxKeV - May 29, 2012, 4:49 pm

Don't even have to open the zip file to know they're HQ. 284 MB is proof enough. VOUCH and thanks a million (^o^;)

Tarn - May 29, 2012, 5:53 pm

Thanks for the vouches, glad you like the pictures <3

Can you just post the links to the wallpaper downloads? I don't really feel like making a request and such seeing what's already here =/

I do not have room in my Dropbox (unless someone else wants to upgrade me lol) the normal drop box only hold 2gb so I have to delete each pack after the requester downloads then. If I ever upgrade I would be happy to post them here but for now you will have to just request. (note that you can request more than one) I also keep the files on my computer do if you request something that has already been asked for just let me know.

I believe he means the main source you get all the HQ pictures from. If i understand you have them on your cpu... but were did you download the pictures??

Alside - May 29, 2012, 9:01 pm

Service looks great Tarn Will probably apply later.

I posted the original site in Op.. The whole point is that I have a private program that can extract hundreds, even thousands of photos in the matter of minutes depending on what tag I enter into the program so that it saves you the time of clicking each one individually. I will not post the program either, it is private for a reason. Sorry :3
