Yea :(It sucks that most things are for the US only,
so I decided to fit together some canadian deals :)
Yay Canada :D

Zain - May 29, 2012, 7:25 pm

Several good freebies in this thread, nice share. Be aware that the 256 mB harddrive, the DVD-RW,
and the 1 GB SD card have never actually been sent out to anyone as far as I've heard. Make sure
to do your research with some of these as a few will only give you spam mail rather than the actual
item.

Classicz - May 29, 2012, 7:28 pm
