\$\$ Clixors : PPD exchange,link clicking, Easy Way to Make money 100 Members +

The group for all people who want to earn by just clicking some links and really cool

Userbar Image ;

Not wasting time, this is the group was designed particularly for all members who want to earn money by clicking adf.ly,#, linkbuck and a lot more links.

But now it is a PPD exchange group as well,

for every PPD you get 1\$

So 90+ members and even if you exchange with 10 people you get 10\$ a day :D

Quite a good earning ?

For link exchange ->

We will ask members to click our links and we will click theirs.

If you are not clicking links we will remove them.

This group is honestly for those who are really interested in earning money by clicking.

Suppose we add 4 links per person and there are 100 people.

So normally they pay like 6\$ for 1000 click so calculate it and you will be overjoyed :)

To apply in group check this

Sorry no more info about it

Members Accepted :

Huge list, to many :)

If accepted then i will send acceptance PM

You actually gave me an idea for this. I could code a program that gives members the possibility to click links, and get clicks back. So, when a member clicks 100 links, he'll get 100 clicks to his link(s).

Btw, I can make those 100 clicks all with an automatism so that the member only has to click "start" and see the clicks go and come.

Username: Threadkill|er
Contact info: PM me for my Skype.
Country: South Africa (GMT +2)
Age: I'll be 20 years old in February.
Why you want to join: I used to be in an unofficial group like this before - there were roughly 200 members and we'd all meet in an IRC channel. That didn't last too long, but since this is a HackForums group, I think it'll be a little more permanent so I'm willing to give it a shot.
Will you bring tricks to our groups: I'll share everything I learned from the last group.
Promise: I'll be absolutely sure to do that. In fact, I did work on a script that would automate it via a points system. Similar in design to Leetclick, but integrated with a forum (So there's the ability to log clicks). If I can polish that code, perhaps I'll share it.

Btw, I can make those 100 clicks all with an automatism so that the member only has to click "start" and see the clicks go and come.

yeah you should do that for sure and pm me when you do
