The next option is m17x which is too highly priced for me..

m14x is decent, but I wouldn't of gotten it. Unless you don't mind spending money on name.

So why did you buy a brand new alienware?

Webmasters - May 30, 2012, 1:07 pm

I enjoy Alienware's but the next thing I'm going to buy is my own personal hosting server and convert it into a personal computer.

That's when I can brag about my status.
