Thread: [md5 decryption needed Getting desperate!](#)

**babette72** - January 31, 2010, 4:09 am

Hey everybody,

Think this is the right forum :)

I have an MD5 and cannot decrypte it I have tried loads of sites. Could anybody help PLEASE! I am getting really desperate Thank you xx

**Plutonium** - January 31, 2010, 4:14 am

Post the Algorithm and and MD5 and i will try to solve it for you :)

**babette72** - January 31, 2010, 4:22 am

Oh thank you SO much

The MD5 is:

738170094c9fcb0411855899bd8c41b0

Thank you xx

**ac1dxtrem** - January 31, 2010, 4:58 am

Is this md5 salted ?

**babette72** - January 31, 2010, 5:04 am

Sorry really not sure what you mean by salted :(

**sdB\_** - January 31, 2010, 5:05 am

Where did you get it from? forum?

**babette72** - February 1, 2010, 8:29 am

I got it from learn to hack.

I think it is in format Base 64 ? Please help x

**Jesse** - February 2, 2010, 3:01 pm

Didn't find it, ran through 3.7 million words, and all lowercase and digit combinations up to five letters long.

The site learntohack.co.uk does not work as claimed, your codes are fake.

**babette72** - February 3, 2010, 9:55 am

Oh No ?

That really sucks! It's a facebook password. I am pregnant and worried. Can anybody hack facebook passwords? I have tried the fishing but did not work. I have email address and id No. Can anybody help Please???
