I cannot even see those images they're so small.

And what does this do? "Generate" Google dorks? That's what Google's advanced search option is for.

Sorry for the images sir and it doesn't generate google dorks. You can use that app to search for something in google(including dorks) which in return, will give you links regarding your search

EDIT:

Direct link of the image is now included in my thread

?Mephobia - May 31, 2012, 3:20 am

I'm confused as to what "dorks" are, and to what this actually does. Good job though.

OneTXxL - May 31, 2012, 3:36 am

nice post here send me the code source please

dorks are what you use to find websites like this: <http://www.site.com/news.php?id=5>
if you add ' after the number and the site returns an error you might hack their database
An tutorial for this kind of hacking: <https://hackforums.net/showthread.php?tid=93224>

MissionTech - December 24, 2012, 1:02 pm

I would like to have this, thanks so much for creating this program :)

DyS- - December 24, 2012, 1:13 pm

Just to say, you have just simply modified a source, I had the source if anyone wants it.

Still, good work I guess.

VPN - December 24, 2012, 1:15 pm

I don't think that it still works. You will need to update the Google API.

pOiSoNeR - December 24, 2012, 2:03 pm

I would love to have this!

Pm'ing you right now.

Anon?M ID - December 24, 2012, 7:04 pm

the pictures are too small :/

but it's okay, PM'ing you right now :P

i would like to see this :)

TrackPro+ - December 24, 2012, 8:42 pm

What about when Google finds suspicious activity and give you a captcha?

ragebunshin - January 14, 2013, 8:16 am

look nice source code :)

can you send download link sir :)

XmysteriousX - January 14, 2013, 8:57 am

does it use google api or webrequest? good luck i other projects

nice source gan :)

please give me the source :)

NiCz - October 24, 2013, 6:52 am

Hey, your program looks very helpful. Can I get the download link? Salamat! :)

mundi_86 - October 24, 2013, 7:25 am

this sound great! can i get the source?
I pm you.

thx

?lixir - October 25, 2013, 4:01 am

Nice! To bad google will ask for a captcha when you automate dorks. Breaking your proggie.

Mr. Crowbar - October 25, 2013, 5:38 am

does this use googles api?

Please make the images bigger, as right now they are impossible to read.

Ninja - November 15, 2014, 8:27 am

Could you elaborate on what a dork exactly is? I have been looking myself, believe it or not, and actually couldn't find much useful information or a solid explanation.

richhacks - November 16, 2014, 2:19 pm

Hiiii, Can i get this Amazing stuff?

I learn alot of sources (not C&P)

Now i can code by Heart but i want to learn mor

Onin42 - November 17, 2014, 9:49 am

I would like to test this, i'm creating something similar i would thing.

webwarlock72 - November 19, 2014, 6:53 am

This looks great. Can you add your own dork to it? Please send me the link. I would like to try it out please
