Thread: [\[SCAM ALERT\] TeLneT Coding Service \[SCAM ALERT\]](#)

dv8er - May 31, 2012, 9:03 am

Update with Proof:

Final Proof.

apologies to all for not doing this earlier, got carried away because I was upset about losing money.(sure some of you have been there).

I will try keep this factual only with the relevant proof, and this should be the last of it.

Dispute:

==

1. Dv8er Claims he bought a FormGrabber application and never got the program (he received fake program, see attachment below).

2. TeLneT claims that Dv8er bought Process Injection code, paid for it and was happy with the code. He then claims that I raised this Scam report because TeLneT would not give Dv8er his formgrabber for FREE from his thread.

So the question is about scope, did we agree on a formgrabber or Process Injection Code and did I ever get the what I paid for.

Proof:

==

Payment Proof: Not needed, as payment is not the dispute. TeLneT has made it clear that I paid him. Anyways payment was via LR, so screenshot will not prove much.

MSN Logs: Unfortunately I used WEB MSN chat, so I cant retrieve the logs.

Code/Product: Please see a link below to the "junk code + files" provided. Clearly you will see that the Fake builder includes functionality for a Formgrabber. Note the files are infected.

[Junk Infected Code Received Yesterday](#)

HF PM's: Unfortunately I randomly cleaned up alot of msg's to make space, but do have the ones listed below. Any FORUM admin can PM me anytime to TeamViewer with me to validate/vouch the below PM screenshots. Or just check my messages directly.

PM Proof 1: Proof that Scope was for a FormGrabber (nothing ever mentioned about a Process Injection Code)

[img]<http://img38.imageshack.us/img38/7681/formgrabberscope.png>[/img]

PM Proof 2: Payment Terms for the FormGrabber (nothing mentioned about Process Injection Code)

[img]<http://img18.imageshack.us/img18/548/paymentterms1.png>[/img]

PM Proof 3: Update from TelNet regarding the project referring to FormGrabber features and his progress.

[img]http://img819.imageshack.us/img819/900/updateconfirm1.png[/img]

After receiving the Junk code listed above, I raised this Scam Report to protect our members.

Its pretty clear the project was for a formgrabber and we agreed on its features and as TeLneT has said, he got paid. But I never got my FormGRabber.

Once again, I welcome any Admin to vouch via Team Viewer etc. Up to this point, TeLneT has not provided a single piece of evidence to back his claims. Not a single piece. He makes references to things I said in PM (qouted), but does not provide any proof of the PM. Surely if you qoute exactly what I said, you must have the PM still. Kindly provide TeLneT.

You be the judge..I dont mind, I already lost my money, makes no difference to me... However I just dont want this great community to be tarnished by silly scammers.

Profile: <https://hackforums.net/member.php?action=profile&uid=1238122>

Service Offering: <https://hackforums.net/showthread.php?tid=2530148>

Hope this helps someone else not to lose money.

Big Scammer, not even a programmer I dont think. (look at his threads, no real concrete proof) Hired his services, took the leap of faith and paid half up front. Then when time came to send a demo, he sends a password protected RAR refusing to give password until final payment)which was not what was agreed, nobody would agree to such terms especially when there is no vouches for the guy. My mistake.

He then sent unprotected RAR with fake files that are infected. (PDF Tutorial which is not even a PDF file...prob an exploit.)

Contact me if you want full proof of all details, MSN Messages and the RAR files. Will be glad to assist.

@TeLneT, if you are going to respond to this, its very simple for you to redeem yourself and prove me wrong...send the Admin or any highly trusted HF member here a Vouch copy of the FormGrabber which you claim you coded and let them make an independent call. Simple.

mtawolf - May 31, 2012, 9:07 am

Its better to post it in this thread, then ask for the proof. We can back you up when you got scammed but you need to show everything and not only explain it.

- Payment
- Chatlogs
- Rar file (with virusscan)
- Private messages

You get the picture

dv8er - May 31, 2012, 10:09 am

I understand your point. Deleted my messages while back to make PM space. I downloaded my previous messages, but now see the actual messages are not in the txt file (not sure how to recover

them. (new to this)

You can download the provided RAR file with its contents from the link below. (I scanned it on MetScan, but don't know how to upload the results here)

The PDF is fake

The txt file is a copy and paste from Yahoo

The Builder does nothing...just a form with tick boxes

Note: this was supposed to be the final product.

<http://www.filedropper.com/builderloader2nopass>

- Payment --> Anyone can fake a screenshot and Transaction number unfortunately. The only REAL proof that will matter, is a PM here where he acknowledges receipt of the payment. An admin would have to independently vouch in that regard. (I cleaned my inbox recently, so don't have the PM)

It's difficult to provide real proof that is not easily "dis-proved" by the other party. Anyone can edit MSN messages etc... even the attachment can be spoofed/edited.

The best prove I can provide to the readers is the attachment and if Telnet thinks differently he can very easily show me wrong.

So to you readers... ask for a sample or vouch of some sorts before you continue.

just another h3 random - May 31, 2012, 10:11 am

Vouch, user was a scammer on a previous forum.

TeLneT_ - May 31, 2012, 10:50 am

@ dv8eris pathetic member here. So here is what happened & what not.

A few days ago "dv8eris" Pm'd me for c++ coding service ,@ "dv8eris" need process injection code programmed in c++

.So after 2 days i made it "process injection i.e forking{workign over x86 & x64 bit & cross platform} & sent him & he look @ it & enjoyed it & payed to me as per deal over LR.

But on second day i got an Pm from "dv8eris" "hey as you made an thread about formgrabber,can i get an copy please?"

My formgrabber bot thread:-

<https://hackforums.net/showthread.php?tid=2428811&pid=23075572#pid23075572>

i replied am not sure if to make it public or provide you.

he replied me same day "See as we had deal & i payed you for c++ project,you can give me free copy of that formgrabber bot" {I was like wtf}

Ok .i replied him,"well will decide later no i need to go out.Cya T.c"

After that ,like 2-4 days or so don't exactly know the days,but today when i log'd over hackforums i saw that bastard making fake scam report against me.

i don't got my old Pm because i emptied my inbox due to full inbox.

Well i challenge he is doinf this because i didnt gave him free copy of my bot{"dv8eris" you will never get now,forget it}

@ "dv8eris" if you got guts & think you are true then provide proof ,like chat messages ,MSN chat logs {Since we both dont got pm msg's ,MSN chat logs will do}

I bet you can't provide because you don't got any & i had done codign for guys over here ,see my points in karma & comments.you think i cant code {Actually i lol'd my death}

Literally i don't got any words ,how @ "dv8eris" made such nice story.,but it aint cool child...

(May 31, 2012 10:11 AM)just another h3 random Wrote: [\[CITE\]](#) Vouch, user was a scammer on a previous forum.

I bet it's op's 2nd Acc. & you got proof ? post it.

dv8er - May 31, 2012, 11:53 am

Too funny for words...too funny. Very simple to prove your coding skills, TelNeT, go ahead, impress us all here. Like everyone else... you require independent vouches from known members. Good luck with anyone purchasing from you.

PS: all of above is 100% bull...never requested "process injection program". I would love to send you guys a copy of the supposed "process injection code" that I purchased...but I have never asked for something like this or purchased something like this or received something like this. TelNet, you have my full permission to distribute this "process injection" program that you say I allegedly paid for to the entire community here... how about the next response you include it for all.

Not sure how the site works...got an email from a user "Mark !" also vouching the scammer... not sure why its not shown here...

here is the email any ways:

==

Mark ! has just replied to a thread which you have subscribed to at Hack Forums. This thread is titled [SCAM ALERT] TeLneT Coding Service [SCAM ALERT].

Here is an excerpt of the message:

--

Yeah,That guy TeLneT is a scammer.I wanted some C++ Work and contacted him and he just gave me his L... (visit the thread to read more..)

--

To view the thread, you can go to the following URL:

<https://hackforums.net/showthread.php?tid=2542899&action=newpost>

There may also be other replies to this thread but you will not receive anymore notifications until you visit the board again.

Thank you,

Hack Forums Staff

Ah, a challenge, I'll take you up on that. Simple to disprove the lies above made by TeLneT. Forum Admins, if you are reading this, you can vouch the PM's attached in this screenshot.

So TeLneT, you claim (ure words above) "After that ,like 2-4 days or so don't exactly know the days,but today when i log'd over hackforums i saw that bastard making fake scam report against me."

So basically ure saying we communicated last like 4-5 days a go, then you logged in and saw a

scam report.

Thats ODD, because a number of hours before the scam report (couple of hours on same day), we exchanged the following PM here on HF: (Admin can vouch no problem)
See attached screenshot everybody.

<http://imageshack.us/photo/my-images/59/scamproof1.png/>

Btw: the Demo being referred to is for the program I asked him to code...so that we could settle the final payment.

And excuse my ignorance, but who buys "process injection code"? I might be interested in a program that performs/uses such process injection etc...but the method/code itself, NO WAYS...there is a large amount of these methods available all over the internet and here for free. Not sure I have seen many sales threads or buyers for process injection methods.

Too many holes in ure lies TelNeT. Idiot.

Community, judge wisely... not too difficult to see the holes.

@TelNeT, took you up on your challenge and provided PM proof. Now, I challenge you...release the program you developed here on the forum to show us all that you have the skills you adverstise, including the CHROME SSL Formgrabber you claim you coded.

TeLneT_ - June 1, 2012, 1:39 am

@ " dv8er " So now you started new story,firstly i will go with the proof you provided :-

It's clearly Written in the PM {image you provided} "that i had mailed you the T-project" .

& what you trying to prove with that is making {Mixing}"c++ process inject" = "F-bot" <- now this is kinda funny.

If you really think this will make you true,then you are wrong.

& my challenge to you was "Provide MSN chat logs" <- So Better you prove it & yes also make sure this time you don't use any spoofed log's {My MSN is known to few peoples that i can make vouch ,SO better don't use any other msn log's to make NEW STORY}

Plus:-

@ "Mark !" Deleted his post from your thread because he read my post in your thread & he had an feeling that i didn't scam ,it's you who trying to make scam story because i didn't gave you my bot. My formgrabber bot thread:-

<https://hackforums.net/showthread.php?tid=2428811&pid=23075572#pid23075572>

Good luck story maker.

@ "dv8eris" i gone wild mad ,forget the bot you won't get it now .this is not the right way to ask something for free.{get an life,seriously}

Too many holes in your lies "dv8eris". Idiot.

Community, judge wisely... not too difficult to see the holes and story makers.

dv8er - June 1, 2012, 2:23 am

Hahaha... you keep making mistakes...not very good at this are you. (Not sure what new story you referring to)

In first post you said you sent the program you coded a while back (after two days) and that I was happy and paid.

Then you say 2-4 days passed, then I sent scam report.

NOW (in second post) you state that you mailed me a program on the day of the scam report (yesterday.) (so now its 2 programs on 2 different dates)

So, the first program was the "injection process code", which was finalized according to you.

So what was the second second T-Project you mailed me later for?

Stupid moron...

No worries, I dont want your program for free or for money. You can just send a vouch copy to Admin to show everyone that you can actually do what you say.

TeLneT_ - June 1, 2012, 2:39 am

@ "dv8er" do you know what you saying /wrote ? you are totally confused in making story.first think properly then prepare it & then post it. lol .

Haaa you kid.

"T-Project " = The Project.

Now you saying "No worries, I dont want your program for free or for money. You can just send a vouch copy to Admin to show everyone that you can actually do what you say."

Wow the deal was never for my formgrabber bot it was for THE "process inject code project"

So why the fck you again & again involving my bot in this shit ? you got crazy just because i didn't provide you free copy of my bot. get lost you will never get it.

dv8er - June 1, 2012, 2:57 am

Another mistake... keep going, you making this easier and easier

To all... does this PM from TeLneT look like features for "Process Injection Code" OR does it look like features of a Formgrabber?

[img]<http://imageshack.us/photo/my-images/854/scammer2bu.png/>[/img]

Just proves the lies from the beginning. I never purchased "process injection code"... dont know who does, as such methods are available free on here and all over the wonderful internet.

Looking for forward to the next mistake/Lie ???

American Apathy - June 1, 2012, 3:02 am

The amount of stupidity here is unbelievable.

OP You need proof for it to be a valid claim. PM screenshots, proof of payment, etc.

You can also send me whatever he sent you and I'll check to see if it's infected or not.

TeLneT_ - June 1, 2012, 3:04 am

@ " dv8er " @ first place you said you got no pm's & deleted them all .

Now let the admins come and check who is speaking truth. They will team view you & check that mail & i am 100 % sure you will get caught because its not related to c++ process injection ,you had asked me about it in late day's pm's.

{@ " dv8er " @ first place you said you got no pm's & deleted them all .} <- then why you said an lie ? because you not good in making stores

You are pwnd kid. count your days. [You are again mixing "formgrabbe"r bot with "process injection" . LOL .

(Jun 1, 2012 03:02 AM)Pierce The Veil Wrote: [\[CITE\]](#) The amount of stupidity here is unbelievable.

OP You need proof for it to be a valid claim. PM screenshots, proof of payment, etc.

Yes thanks bro for that. & please read my / his replies from start .truth will be clear as clean water.

TeLneT_ - June 1, 2012, 3:19 am

(Jun 1, 2012 03:14 AM)dv8er Wrote: [\[CITE\]](#) @ Pierce the Veil...yes it is

The link to the code provided to me yesterday when I reported the scam is in post 3:

<http://www.filedropper.com/builderloader2nopass>

Its all fake...have a look at it.

TelNet has confirmed that I paid him in his previous post. Issue is not payment. Issue is I never got any program (formgrabber). He says I bought something else (process injection code, not the formgrabber)

From the previous screenshot it is more clear what the scope of the project was. (i.e formgrabber vs process injection code)

I welcome any admin or respected HF member to Teamviewer with me to validate the screenshots I am submitting. I will be more than happy to ?

Will only be online later though.

Yes see again your referring that deal with formgrabber bot,are you retard ? or got mad ? deal was for "c++ process injection"

why you again & again saying formgrabber bot from start ? {seriously this is horrible effect of not giving you my bot for free}

& that pm's regards "formgrabber bot" & not "c++ process injection"

really you got no good story to make with pm's not related to "c++ process injection " & "formgrabber bot"

& what is that link you provided ,its some shit inside it .we had deal for c++ source code project & not that what you provided.If you got guts then provide c++ src code project {process injection} with proof. {& i had never provided you such links} {if i did prove it}

you got no proof & you just make bullshit stories & get everyone confused by again & again mixing "formgrabber bot" with" c++ process injection" & pm's

Seriously you need an doctor.

why you mixing them both kid.. you are fail & soon you are going to get pwnd kid ?

American Apathy - June 1, 2012, 3:22 am

(Jun 1, 2012 03:19 AM)TeLneT_ Wrote: [\[CITE\]](#) Yes see again your referring that deal with formgrabber bot,are you retard ? or god mad ? deal was for "c++ process injection"

why you again & again saying formgrabber bot from start ? {seriously this is horrible effect of not giving you my bot for free}

& that pm's regards "formgrabber bot" & not "c++ process injection"

really you got no good story to make with pm's not related to "c++ process injection " & "formgrabber bot"

why you mixing them both kid.. you are fail & soon you are going to get pwnd kid ?

Please update your first with proof of your side of the story, all this is a word battle right now.

TeLneT_ - June 1, 2012, 3:31 am

(Jun 1, 2012 03:22 AM)Pierce The Veil Wrote: [\[CITE\]](#) Please update your first with proof of your side of the story, all this is a word battle right now.

AS i had all deal over PM system & as i said in first post i got no pm's as i deleted them because my inbox was full.

But what Op is trying is he is trying to mix "formgrabber bot" with "c++ process injection" just bcoz i didn't provide him free copy .you can read my starting replies & you will get what's the point of this thread. {we had deal for process inj which for successful done,more info i provided in my starting replies in this thread}

Conclusion:- Op gone wild mad because i didn't provide him free copy of bot. & now he is mixing stories with 1 another & trying to confuse audience .

thanks...

Orgy - June 1, 2012, 3:45 am

To be honest, it's pretty easy to tell TeLneT_ is full of shit here.

Royal ! - June 1, 2012, 4:19 am

Yeah,That guy TeLneT is a scammer.I wanted some C++ Work and contacted him and he just gave me his Libertyreserve Account number to first pay him the Full Amount even when i did not even told him that i will be paying via Lr.

TeLneT_ Please get the Fuck Out from this Forum.

TeLneT_ - June 1, 2012, 4:51 am

(Jun 1, 2012 03:45 AM)Orgy Wrote: [\[CITE\]](#) To be honest, it's pretty easy to tell TeLneT_ is full of shit here.

Firstly why you think am shit ?bcoz you are shit ? & -rep's without knowing

TeLneT_ Please get the Fuck Out from this Forum.

yes bcoz i only accept LR .because over hackforums i see lot's of scam post's so its an precautions. & i never said full pay me ,half after work done. & why you -rep's without knowing

1nf4m0us - June 1, 2012, 7:00 am

I think TeLneT_ didn't scam you.

He proofed me over PM that he had programming skills.

TeLneT_ - June 1, 2012, 7:02 am

(Jun 1, 2012 07:00 AM)tokivena Wrote: [\[CITE\]](#) I think TeLneT_ didn't scam you.

He proofed me over PM that he had programming skills.

Thanks for the confirmation .I hope at-least now Op will stop his fake scam stories on me.

dv8er - June 1, 2012, 7:48 am

Final Proof.

apologies to all for not doing this earlier, got carried away because I was upset about losing money.(sure some of you have been there).

I will try keep this factual only with the relevant proof, and this should be the last of it.

Dispute:

==

1. Dv8er Claims he bought a FormGrabber application and never got the program (he received fake program, see attachment below).

2. TeLneT claims that Dv8er bought Process Injection code, paid for it and was happy with the code. He then claims that I raised this Scam report because TeLneT would not give Dv8er his formgrabber for FREE from his thread.

So the question is about scope, did we agree on a formgrabber or Process Injection Code and did I ever get the what I paid for.

Proof:

==

Payment Proof: Not needed, as payment is not the dispute. TeLneT has made it clear that I paid him. Anyways payment was via LR, so screenshot will not prove much.

MSN Logs: Unfortunately I used WEB MSN chat, so I cant retrieve the logs.

Code/Product: Please see a link below to the "junk code + files" provided. Clearly you will see that the Fake builder includes functionality for a Formgrabber. Note the files are infected.

[Junk Infected Code Received Yesterday](#)

HF PM's: Unfortunately I randomly cleaned up alot of msg's to make space, but do have the ones listed below. Any FORUM admin can PM me anytime to TeamViewer with me to validate/vouch the below PM screenshots. Or just check my messages directly.

PM Proof 1: Proof that Scope was for a FormGrabber (nothing ever mentioned about a Process Injection Code)

[img]<http://img38.imageshack.us/img38/7681/formgrabberscope.png>[/img]

PM Proof 2: Payment Terms for the FormGrabber (nothing mentioned about Process Injection Code)

[img]<http://img18.imageshack.us/img18/548/paymentterms1.png>[/img]

PM Proof 3: Update from TelNet regarding the project referring to FormGrabber features and his progress.

[img]http://img819.imageshack.us/img819/900/updateconfirm1.png[/img]

After receiving the Junk code listed above, I raised this Scam Report to protect our members.

Its pretty clear the project was for a formgrabber and we agreed on its features and as TelNet has said, he got paid. But I never got my FormGRabber.

Once again, I welcome any Admin to vouch via Team Viewer etc. Up to this point, TelNet has not provided a single piece of evidence to back his claims. Not a single piece. He makes references to things I said in PM (quoted), but does not provide any proof of the PM. Surely if you quote exactly what I said, you must have the PM still. Kindly provide TelNet.

You be the judge..I dont mind, I already lost my money, makes no difference to me... However I just dont want this great community to be tarnished by silly scammers.

Updated the first post, only saw Pierce the Veils suggestion now.

TeLneT_ - June 1, 2012, 8:21 am

Firstly you have not proven its deal for formgrabber,we just talked about it but later you didn't agreed about deal & final deal was for c++ process injection.

SO that means you providing screenshot's for what we had talked but the deal was not done ,if you dare then also post the screenshot of the last PM in which i said "No i wont accept this price & i will not do that formgrabber project"

you just making an nice story with fake proof.

if admin can recover my pm's it will be thankful.

you are big goddamn liar man.

dv8er - June 1, 2012, 8:26 am

Please provide evidence of your claims. Thank you.

TeLneT_ - June 1, 2012, 8:29 am

(Jun 1, 2012 09:18 AM)TeLneT_ Wrote: [\[CITE\]](#) Bro that guy pm'd me to see proof after he saw this thread.you can confirm from him if am speaking lie..

CAn see above ? also read my other proof in thread.

Thanks for the confirmation .I hope at-least now Op will stop his fake scam stories on me..

The user "tokivena " saw it ,i showed him,see his vouch .Now you kid are again pwnd

What do you not understand about your words and some random idiot vouching for you are not proof?

Screenshots are proof, videos are proof, none of which you can provide so its pretty obvious you're indeed the scammer. It looks to me like you made him pay and you couldn't complete his request and now you're just making up bullshit stories.

TeLneT_ - June 1, 2012, 9:25 am

(Jun 1, 2012 09:21 AM)Pierce The Veil Wrote: [\[CITE\]](#) What do you not understand about your words and some random idiot vouching for you are not proof?

I showed "tokivena" user all that thing ,you can confirm from him & as i told in my first post that i don't got any pm's as i deleted all due to full inbox.

& did u notice on first post OP said he don't got any pm's bczo he deleted too bczo of full inbox ,then how come he shows the pm's ?

So simple ,he is making stories.

dv8er - June 1, 2012, 9:26 am

AND some random vouching that you have "programming skills" has ABSOLUTELY nothing to do with this thread or dispute.

TeLneT_ - June 1, 2012, 9:29 am

(Jun 1, 2012 09:26 AM)dv8er Wrote: [\[CITE\]](#) AND some random vouching that you have "programming skills" has ABSOLUTELY nothing to do with this thread or dispute.
you can confirm i showed him code

& one more thing ,prove it ,screenshot you said you got no pm's ,deleted them all ,now how come you got them ? sure you made them edited & fake shots.

Now you prove to other member over TV that they are legit.

ya kid show.You cant make stories.

dv8er - June 1, 2012, 9:35 am

How about showing us all here!!! You still have not showed anybody anything. Not one thing.

@ To the community, what is the process or rules to get scammers off this forum?

TeLneT_ - June 1, 2012, 8:49 pm

(Jun 1, 2012 09:35 AM)dv8er Wrote: [\[CITE\]](#) How about showing us all here!!! You still have not showed anybody anything. Not one thing.

@ To the community, what is the process or rules to get scammers off this forum?
AS i told i don't got pm proof as i emptied inbox .BUT i showed necessary proof+code to the member above & he also vouched & its code so why should i show to all ? just to leech ?

You can confirm by by pm'ng him & he will show you the proof.

@ least now stop your scam stories

1nf4m0us - June 1, 2012, 9:44 pm

(Jun 1, 2012 09:26 AM)dv8er Wrote: [\[CITE\]](#) AND some random vouching that you have "programming skills" has ABSOLUTELY nothing to do with this thread or dispute.He is some kind of right with that.

Even if I vouched for your programming skills, I cannot guarantee that you are not scamming.
And in the end, refund the OP without giving him the program you have coded.

TeLneT_ - June 1, 2012, 9:48 pm

Op get an life. Yes, but OP now has more proofs that he did pay for a formgrabber. His proofs seems more solid than the proof you showed me.
Refund the OP and the scam report will be closed, that's the best thing to do.

dv8er - June 1, 2012, 9:58 pm

Agreed Tokivena.

TeLneT, please read the OP and Scam report details. This is not a Scam Report relating to your "programming skills". So no proof of this is needed.

This is a scam report regarding being a thief and the objective here is to protect other members from being scammed.

American Apathy - June 1, 2012, 9:58 pm

According to you it was through PM's and you deleted them. Switching computers won't get those PM's back unless you're faking them.

1nf4m0us - June 2, 2012, 3:58 am

Telnet,
now I am with OP,
you clearly said in this image
[img]http://img38.imageshack.us/img38/7681/formgrabberscope.png[/img]
that the "bot" was gonna be inline ASM,
you showed me a c++ code of a process injector. something was weird with the image and it had no colors highlighting.
Secondly, you said "Http + Https", you wouldn't have said that if it wasn't a formgrabber.
that should be enough.

TeLneT_ - June 2, 2012, 6:39 am

Staff cannot recover your deleted PM's.

dv8er - June 2, 2012, 11:16 am

@TelNeT : From your above messages you are tacitly vouching for my PM Screenshots (which you have repeatedly said were fake in posts before)

I quote TelNeT said "@tokivena That was just an discussion not a DEAL". thanks for the vouch.

TelNeT keeps repeating the same posts over and over again.

Seems he is trying to fill the last comments of the thread with his anti-scam point of view... (as most readers skip to the last couple of posts.)

OMG!!!! Starting to change your story again TelNeT. In your earlier posts you say I first requested Formgrabber for free and NOW you say we tried to negotiate a deal... AND

Due to HIGH price????

In my attached proof I clearly state...AND I QUOTE "I dont mind paying \$800 even if you have already written most of the code"

THEN at the end of the PM PROOF, I even offer an additional \$200 for stable product.

Please refer to attached PM proof in first post. Dont want to spam the thread with the same images again.

Telnet, refund the user and the scam report will be closed.

TeLneT_ - June 3, 2012, 7:13 am

I have provided necessary quotes to an staff along with proof.Just waiting for the guy's reply & also gave him much better proof ,so to say an copy of my bot's bin & test panel link & also the "process injection code" .

Just stay tuned.

Sikandar - June 3, 2012, 8:14 am

I won't take sides but I do know how much TeLneT_ is knowledgeable regarding on what he does (programming).

As for the evidences which the OP has posted, they are legitimate although I know that we still need to see more from the side of TeLneT_.

@TeLneT_, do something about the proof that you can give and I'm hoping to see this issue resolved.

dv8er - June 3, 2012, 8:16 am

Rules are clear that Staff should not be contacted to settle disputes. (So staff will not help...anyways we all know that its fake)

This is the place to provide your proof.

You still have not supplied a single piece of evidence. Nothing.

Furthermore, based on one of the members posts who vouched that you are a scammer from another forum I have started working on other forums too ... you make very obvious mistakes where you go.

American Apathy - June 3, 2012, 8:20 am

(Jun 3, 2012 07:13 AM)TeLneT_ Wrote: [CITE](#) I have provided necessary quotes to an staff along with proof.Just waiting for the guy's reply & also gave him much better proof ,so to say an copy of my bot's bin & test panel link & also the "process injection code" .

Just stay tuned.

According to you all of it was done via PM's and you deleted them. PM's can't and won't be recovered therefore any real proof you gave staff is fake.

Staff isn't stupid nor do they even get involved in deal disputes. I wouldn't be surprised if you just got banned or repfucked for wasting their time.

Quote:Deal Disputes Important Rules

1. HF will not be held responsible for deals made by members. All deals at your own risk.
2. No posting of private data in text form. Screenshots related to deals allowed (paypal, PMs) only.
3. Do not contact staff about a deal dispute.
4. Any reputation you leave calling someone a scammer requires you to link to a deal dispute you've created.
5. Read [Help Docs](#) and stickies for additional information.

TeLneT_ - June 4, 2012, 2:58 am

I have provided necessary quotes to an staff along with proof.Just waiting for the guy's reply & also gave him much better proof ,so to say an copy of my bot's bin & test panel link & also the "process injection code" .

I was not supposed to do this because the deal was to never disclose that i am the original coder of this bot,but for you ONLY for "THE FAKE STORY MAKER Op" see this:- {Who says my service is fake}{I am very disappointed by Op & this website} {people here dunno how to Co-operate,talk,they do stuff like 12 years old kid,the maturity level is very low[i would say absolutely 0 except 5 or 9 guys]}

<https://hackforums.net/showthread.php?tid=2537729&page=13>

Of course after this disclosure my relations with " pr0t0typ3" will not be good{In deal i was mentioned to never tell anyone am Original programmers of this nice bot}{Php Panel done by JQuery Completely},but i was helpless because the working mechanism of this forum is strange/disappointing. {Sorry " pr0t0typ3 " i had to do this}

Just stay tuned Soon the staff will reply & that staff had assured me if i am innocent then OP will be banned .
