Yes I realize it's technically "Security Researcher Acknowledgments for Microsoft Online Services" but it's the closest thing to their hall of fame. It was for a XSS vulnerability.

Not that I'm aware of, unless it was a big vulnerability. Although I also don't think they have a vulnerability rewards program like Google.

phybe? - June 3, 2012, 8:06 am

Thanks guys, I appreciate it and @ICodeDTech™, I would give out training but I barely have time to even conduct paid lessons right now so I wouldn't be able to dedicate the time that you would deserve.

However, I did create a thread where I am giving away Ethical Hacking resources if you'd like to check it out: <https://hackforums.net/showthread.php?tid=2550962>
