

Forum: [Hack Forums](#)

Thread: [Cryptography forum](#)

Artharas - June 2, 2012, 8:56 am

Remake that shitty forum, seriously, here take a look:

[Cryptography, Encryption, and Decryption](#)

Only spam about Crypters.

That is not what the section is for, Admin please make a subforum to discuss 'crypters only'. And let that forum enjoy it's real purpose.

Best regards,

Artharas. ?

Xerotic - June 2, 2012, 9:08 am

I actually somewhat agree. A section for just "crypters" would be wonderful.

DaFreak - June 2, 2012, 9:11 am

Yeah, I agree with this. Many people post things like "Buying FUD crypt" Paying 2\$ or whatever. I see a lot of threads like that, a sub-forum should be made "Crypting requests" .

I agree with you.

Vexna - June 2, 2012, 9:12 am

Same here. Many members (if not all) do not use this forum correctly.

bobjon - June 2, 2012, 9:24 am

I'm all for this. That section is swamped with crypter sales threads.

Snoopy - June 2, 2012, 9:27 am

Agreed, and it's been like this for almost 1.5 years lol.

Han. - June 2, 2012, 9:28 am

Wow, I agree with this but listen:

I have previously suggested the exact same thing in the Phreaking section because it's just full of SMS bombers but apparently that has everything to do with phreaking.

Let's just hope this doesn't get the same response.

ajjt - June 2, 2012, 9:28 am

I made a thread about it but nothing happend

Edit: Here is the thread I made, <https://hackforums.net/showthread.php?tid=2506838>

(Jun 2, 2012 09:24 AM)bobjon Wrote: [\[CITE\]](#) I'm all for this. That section is swamped with crypter sales threads.

Wrong. These threads are stickied, when the sticky expires, it goes in the Marketplace.

bobjon - June 2, 2012, 9:43 am

(Jun 2, 2012 09:30 AM)Vexna Wrote: [\[CITE\]](#) Wrong. These threads are stickied, when the sticky expires, it goes in the Marketplace.

I meant crypter threads. Doesn't have to be for money. My mistake sorry.

KILLM3 - June 2, 2012, 9:47 am

(Jun 2, 2012 09:08 AM)xerotic Wrote: [\[CITE\]](#) I actually somewhat agree. A section for just "crypters" would be wonderful.

I do agree, but if all of the crypter type threads were removed, there wouldn't be much content at all left in the section.

It would only be:

Hai guise, crack may hashes plz

But yes, I do agree completely.

Artharas - June 2, 2012, 10:22 am

Thanks for the support guys, lets make HF a better place.

TickTockMan - June 2, 2012, 10:25 am

I agree. The cryptography forum is nothing like it should be. Too much crap that is really not related to the stated subject. A sub forum sounds good to me.

Kotei - June 2, 2012, 10:25 am

I completely agree. When threads like mine get drowned out by shitty crypters, it gets a bit demoralizing.

DaFreak - June 2, 2012, 10:35 am

Everyone is agreeing over this, I hope Omniscient accepts this!

Kyle1995 - June 2, 2012, 10:36 am

I completely agree. The forum itself should compose more of crypting techniques and such, rather than "Selling 0/37 crypter!"

Paradoxum - June 2, 2012, 9:46 pm

You can have all crypter threads stay in [Hacking Tools and Programs](#). Or, the new sub forum would be under that. The [Cryptography, Encryption, and Decryption](#) forum is not for paid nor free crypting and decrypting requests and questions about what is the best paid crypter. Remove all of those, and what we'll get is legitimate discussion.

Dan. - June 3, 2012, 1:14 am

I agree with this. That section has a lot more meaning than just "crypters".

AcidSuit - June 3, 2012, 1:35 am

I agree with this so much. The forum is all spam and advertising it is a clusterfuck.

Broda - June 3, 2012, 1:56 am

Agreed. Nice idea from a new member :). I hope Omni will make some changes there :/

Libyano - June 3, 2012, 4:45 am

I too agree with this, something has to be done about this.

Prince™ - June 3, 2012, 8:58 am

Oh yes . So that we can see something else interesting about Cryptography than " xx crypter " thread with it's download link.

Dan. - June 3, 2012, 4:47 pm

(Jun 3, 2012 08:58 AM)????? Wrote: [\[CITE\]](#) Oh yes . So that we can see something else interesting about Cryptography than " xx crypter " thread with it's download link.You mean "Post and PM" correct? I mean, this is HF we are talking about. :)

Artharas - June 6, 2012, 9:45 pm

I forgot to post a poll, is it too late?
