Thread: [Blackshades Remote Controller \(R.A.T.\) or Blackshades Fusion](#)

ANONYMOUS.EXE - June 3, 2012, 10:22 am

hey everyone ive just got my dark comet rat working and i want to upgrade to Blackshades Remote Controller (R.A.T.) or Blackshades Fusion does anyone know which one is better for hacking runescape accounts ?

also can you tell me some FUD crypters please

Russian Person - June 3, 2012, 10:24 am

I suggest you to get the Blackshades .NET RAT. It's better in my opinion.

Many crypters in the marketplace are FUD.

Tricorn - June 3, 2012, 10:24 am

fusion is lightweight but i suggest getting remote controller, it is so much better and has better features if you can port forward :P

InfectedWorld - June 3, 2012, 10:25 am

You should buy the RAT because its easier to hack Runescape accounts whit the pinlogger function

ANONYMOUS.EXE - June 3, 2012, 10:32 am

thank you everyone but i can pf but on my darkcomet it upnp and it works?

Angelic™ - June 3, 2012, 11:21 am

i suggest u use http bot and for crypter u can use sheikh or cryptex
hope it helps

Trollosaur Rex - June 3, 2012, 11:22 am

Blackshades NET , the pinlogger is very , very usefull :)

Guinea pig - June 3, 2012, 11:23 am

Blackshades NET, all above says :d.

Demonstinger - October 18, 2013, 1:52 pm

It depends on what you are looking for, if you want a lot of cool features then get NET!

If you want to hold a lot of slaves, then get fusion.

Marketiers_boy - October 20, 2013, 7:40 am

Blackshades NET feels more like fun.

You really feel your money were well spent with blackshades net
