Thread: [iPhone App Developers interested in creating an app that will make MILLIONS. PM ME!](#)

[nK]-Smok3- - June 4, 2012, 10:05 pm

This is not a joke, I have come up with a BRILLIANT idea for an app that no one has thought of yet. I am familiar with coding, just not apple's language.

I will make you sign a legal document stating if you take my idea for my app, I can and will sue. The app would be \$0.99, which is very convenient, and it will make millions. Apple will take their cut (30%), and the developer will receive somewhere between 10-15% after the initial 1,000 downloads. It WILL boom to 100,000-500,000 downloads within a month, I guarantee it, and soon, over a million.

This idea is genius.

PM ME, Add me on AIM:

nKsmok3

or msn:

theycallm3god@aol.com

Who wants to make money that won't fuck me over? Let's do it.

Everyone says things like this. But to be honest, not all brilliant ideas get big. Sometimes its the simple things.

I don't really care what it is.. I'm just interested for some reason.

If it gets this guy excited enough to get so serious, it's probably something worth while.

Looks interesting.i also have a app idea AND a developer ;) The restrictions for ios are strong so be sure you fit it with your idea.Hope you post it after startup so you can receive our millions :) If you like you can contact me if you need assistance.

Krillere - June 5, 2012, 11:21 am

I'm an iOS developer, bored to death ATM. so feel free to contact me. I have a portfolio of a few apps made for government-controller institutions in Denmark. :-)

kreas96 - *July 1, 2012, 11:20 pm*

I just pmed you Krillere, I'm also interested in creating an iphone app
