semi_blind - June 7, 2012, 3:32 am

Hey guys I just compiled a hell lot of info to bring to you 2012's Summer Anime Guide (July - September). I've also mentioned the airing dates and the number of episodes of each series, previews and not to forget a popularity poll. I've posted it on my blog WanAni.Me!

I will be regularly updating it and making fixes so stay tuned! ?

I hope you guys like it!

Edit: Almost forgot I've also listed a Who Sub's What section so that you can view which sub-group will sub which anime series.

Remember to comment.

Thanks.

Must say man Muv-Luv Alternative: Total Eclipse is something I cannot wait to watch!

I know a few friends hyped for SAO, so I guess that will probably be one of the series I watch to discuss with them about. Besides that I don't see much. I'll probably just wait and see what AA makes threads about then watch those.

I think im only Hyped about Sword art online, I can't wait for it, I haven't seen anything else that peeked my interest.

Nothing too appealing over the summer release. Maybe fall release would be better.

Chouyaku Hyakunin Isshu: Uta Koi looks really interesting. The animation looks like it will also be unique.
