Thread: [Buying ? Shells - API's ? Private Shells ? SKYPE RESOLVER .php ?](#)

Oats??? - June 7, 2012, 8:41 am

Ruben and I are setting up a stress tester and are looking to buy high quality API's and private shells, if you have these then please post your offers down below, all private messages will be ignored.

Ruben will be taking the trades and will not go first unless we both deem you as a trusted member.

Thanks
