What do you plan on doing in your future at HF: I plan on contributing a lot of new, various things to the forum. I plan on making HQ tutorials for various things. The only reason I don't have any rep, is because I can't post in the giveaway section until I'm upgraded. What have you contributed to HF: Well, at the moment, I've contributed my activity. But you have my word, the minute I receive l33t, you will see me in the giveaway section giving away crap loads of things. I don't mean simply netflix accounts, I mean steam accounts, origin accounts, etc etc. You will see me a lot active in the hacking sections as well, as that's where I like to post the most, cause

I can help out a lot of people.

Why do you deserve a upgrade: I wouldn't say I deserve more than anyway else, but I think I could make a great edition to the L33T team, and I think you were very well not be wasting your money on upgrading me to l33t, simply because I'm HQ, and I have a lot of knowledge on what I'm doing.

UB3R or L33T upgrade: L33T
Age: 15

What do you plan on doing in your future at HF: I plan to host more contests/giveaways like this one, and also create tutorials. I have been trying to learn coding and GFX, so in a few months I will probably be able to make some good tutorials myself to share with the community. Furthermore, I would like to become a model and someone that can help a lot of members.

What have you contributed to HF: I have done a few giveaways including for Battlefield 3, Minecraft (when it was allowed), Ad clicking, and some other minor stuff. I also have helped others in the marketplace, giving honest opinion on things such as eBooks. Also, I try to help members, whether they were normal or Ub3r.

Why do you deserve a upgrade: I deserve and upgrade because I feel like I have potential ahead of me. Also, I enjoy my time on HF, but being upgraded would make the experience sweeter. A big issue I have is the little PM space. I am pretty active in the Marketplace and I have to constantly delete my PM box which makes me delete important messages. Having a larger PM space would allow me to be able to both be able to receive PM's and send them without the worry of it getting full when I am offline.

What does 630 mean to you? 630 is an area code in Illinois. But on Hackforums, 630 is an awesome member who is 100% legit and sells cheap XBL ;)

Why do you deserve a upgrade: I think i deserve a upgrade cause i can not afford it and I consider myself a HQ member.

What do you plan on doing in your future at HF: TO be honest, I would learn a new thing every day from other members and I'd share my knowledge with the rest of the community. It has already taught me so much, but there are much more secrets to be revealed, and one cannot simply know everything. I would like to provide a more peaceful and more informed community.

What have you contributed to HF: I have helped out everyone that requested it or looked remotely stuck or unsure. I have offered my honest opinions when needed or required. I've provided mini-tutorials to share what I've learned to others.

Why do you deserve a upgrade: Well, as a l33t, I would get more respect, something I haven't really gotten ever since I registered for being a "nooby non l33t/ub3r" I would make the HF community a more peaceful place, and I would renew efforts to help the community as a whole.

What does 630 mean to you? It is a positive integer that has a distance of 36 from 666, which is a square root of 6. It means sinister, or it's an Illinois zip code.

L33T upgrade: l33t

Age: 17

What do you plan on doing in your future at HF:

I will continue to do what I am currently doing, that is being active a lot (especially over the past few

weeks), providing detailed and high quality but true information and to hopefully if I get this upgrade to be able to give free stuff to the community in the givaway section, I have lots of things in my mediafire storage.

What have you contributed to HF:

Although I have not contributed a lot of things to the forum I have gave away a few things such as an MSN bot and 100 hotmail accounts. I could have provided a lot more in the givaway section but because of the new status that "members" can no longer post there it means I no longer can give back free things to the community. I do contribute other ways by helping users with certain problems they may face, have a look at my REP you can see things such as "Thanks for the help", "You saved a lot of accounts on hackforums today" and so on and I will continue to but of course user restrictions in some parts of the forum of only being able to have 20 posts a day restricts me.

Threads I have gaveaway before the new rule:

<https://hackforums.net/showthread.php?tid=2447308> - MSN bot

<https://hackforums.net/showthread.php?tid=2503954> - Free accounts

I wish I can release more but cant at the current minute.

Why do you deserve a upgrade:

I think I deserve an upgrade because I have been a very active member and you will know that if you do upgrade me that it won't go to waste on someone that logs in once every month, I am always helping members and watch areas on hackforums which I feel I am slightly experienced in such as the RAT section, I have mostly positive reputation apart from that one misunderstanding with someone thinking I posted a referral link in the lounge when I was actually asking if the site was legit and some guy not being able to handle the truth of a situation and claimed I was trolling him and the mere fact that I help users as much as I can.

What do you plan on doing in your future at HF:

I'm currently making my botnet grow larger so I will be able to do services around the forums. On top of that I'm slowly, but surely, learning C++. Once I get better with it I plan to make programs for the community.

What have you contributed to HF:

A few small giveaways in the past, I've partnered up with some people to help them get going on their botnets/RATs, I give my honest opinions about products I buy so others know how bad/good said product is. I always give help whenever I'm able to. I mostly give answers to questions people have about how somethings or how to set it up.

Why do you deserve a upgrade:

I think that I help a lot of people around the forums and am an overall nice person here. I often step in and help somebody when they need it. I plan on making products and a lot of tutorials on how to make said products once I learn C++ better. I also feel that I'm a HQ member. Sure, I don't make fancy tutorials and sell products (yet), but I help people out when they need it and am always giving my support. There are many more reasons, but I can't think of them right now. I honestly only got about 4 hours of sleep last night because I was working with somebody most of the night about botnets.

What does 630 mean to you?:

It's the time I wake up in the morning normally. Besides that it means nothing.

Why do you deserve a upgrade: Well, I'm very active here, and been here in only 2 month but still being very active. I am planning on doing alot more giveaways, and still keep helping people if they need help. I am online about 5 hours in schooldays, and up to 8 hours in weekends, depends on if I got homework or have to do something else. I've only made 3 giveaways. Luck being the 10% factor that the person hosting this might pick you or found somebody who contributed more and 90% being the contribution made. If you made alot of HQ contributions and Giveaways i think you would deserve the better side of things. Why do you deserve a upgrade:

I deserve L33T because I am continually trying to contribute my knowledge that I learn and help others. I've never met anyone that dislikes me at this community and haven't received any negative rep. I try to be as respectful and HQ as I can and just generally try to be a good factor in the community. Gave many people free things such as Gold membership, OG gamertag's, a boost or need help in finshing a mission or game.
