I miss the minecrafters, so I would say a group about minecraft, and maybe other computer games such as Runescape, LoL, Terraria, etc..

Pocky - June 7, 2012, 10:38 pm

A group for people that play Yugioh. If I had 3k I'd totally buy that.

Exploits - June 7, 2012, 10:38 pm

Possibly a social engineering group? Or a dedicated hacking one? Or a just chilled group?

If you're looking for a chilled group, I suggest the group name: "Weeds".

- Supporting "Weeds" because of many Lounge discussions about this, and suits the category.

On the other hand, a dedicated hacking group would be nice.

You could just branch off, basically.

Hacking could lead off to:

- Exploiters
- DDoSers (not really hacking)
- Etc.

Honestly dude, I think you should make a group called "The three musketeers". Than only allow two other people in the group, other than yourself of course. It would make everyone jelly that you had a group for only you and two other friends. If anyone wanted it, you could have them pay \$100 to get it, and tell them they get a month to be in before the next person can pay :p

What do you think?

Slayuh - June 7, 2012, 10:41 pm

Oh my god, if you did the "Weeds" idea I would LOVE to join it, because it would be a chill group, just like me, I support it!

Magic? - June 7, 2012, 11:51 pm

Make a new minecraft group, i really miss the old one.

Baghead - June 7, 2012, 11:55 pm

I'd say either social engineering or Minecraft. I love both, and I never had a chance to apply for the Minecrafters. Don't do a weed group though, I don't think Omni would approve of that and TBH it probably would be LQ.

Emirates - June 8, 2012, 12:08 am

make a group thats official. i dont care the topic. im sick of seeing "soon to be official" bullshit

Crusher - June 8, 2012, 4:17 am

Maybe some kind of ddos group? That's the only thing HF dose not have as group.

Kamizuki - June 8, 2012, 7:22 am

Make a group that is pay to enter for sure. I advise not a gaming group. Maybe a group that idk kinda like marketeers...

Han. - June 8, 2012, 7:56 am

New Minecrafters group // Old one was LQ as hell

*Social Engineering group (I don't think this would be approved unless moderated heavily) // SE is banned, this wouldn't be approved

*Yugioh group // <https://hackforums.net/showthread.php?tid=2566856>

*The three musketeers (only two other friends get in this group unless you pay a high fee to get in) // A high fee? *sigh Another pay to enter group

*Weed group ('chill group'; I don't know if this would be approved) // This is just a bad idea

Mr Kewl - June 8, 2012, 8:02 am

Group "Discover" not based on any single idea, here in this group people will learn new things. Who will be recruited? Everyone who can teach something or want to learn.

I don't want to type whole of my Idea will be waste of time cause I have to type over 5k words.

If you're really gonna buy OP, I will tell you.

~HF~ - June 8, 2012, 8:22 am

Hacking group decicated to hacking and making money of hacking and things like that ? would be a true HACKforums group :D

Bridge - June 8, 2012, 9:18 am

A group with real Unix experience that shows and shares it.

Rozyn - June 8, 2012, 9:45 am

If it is Minecrafters, I would LOVE to be in it. If it was about hacking, I would LOVE to be in it! I want to get better at hacking, and I am a boss a Minecraft

Th3PonyWizard - June 8, 2012, 9:47 am

A dedicated hacking group would be cool. I mean - There aren't any of those actually.

Hexicidal - June 8, 2012, 9:53 am

Remember that BH activities such as SE are no longer welcome.

A music group.

.Ganja - June 8, 2012, 10:17 am

Make a smokers group, chilled, weed, pots head smokers.

Van Hohenheim - June 8, 2012, 11:51 am

All I have to say is Brony group. You know it's a good idea.

?A?O - June 8, 2012, 12:24 pm

I'd say Social Engineering group.

It's something I love and was very sad when the forum section of it was taken down.

Would be a group for sharing sort of tricks of the trade, tips, etc.

.kDS - June 8, 2012, 12:25 pm

I'd say a RAT group, I mean a shit ton of users use RAT's so why not? :)

Supra23 - June 8, 2012, 6:19 pm

I would love to see a RuneScape hacking group. It should be invite only or pay a fee. I would love to be a staff member if you do choose to make this group. I want this group so we can all share spreading ways and stuff. There are a lot of skids so that's why have it invite only or a high fee.

Make the group a limited amount of people. I, yet haven't see a RuneScape related group. I would love it if this could become a group. Thanks.

Angel Beats! - June 8, 2012, 6:23 pm

I second the Music group, I would totally join that.

Kyle FYI™ - June 8, 2012, 6:26 pm

Cracking, Botnets, Pentesting, Cryptography. I think any of them would be really good.

Social Engineer - June 8, 2012, 7:13 pm

A DDoS group sounds cool, something I myself would be interested in.
