FifaFAN"A group for FIFA fans by FIFA fans"

Introduction

FifaFAN is a group here on HackForums inspired by "AnimeFAN" the unofficial group dedicated anime. In FifaFAN we will be covering most topics around football, we will have a private skype chat for users to discuss recent matches, tournaments, play against eachother and even a private marketplace for the trading of UT items. We will also be working VERY hard to get FIFA noticed so that Omni may add a FIFA section.
