Thread: [\[Java\] Tetris: Great Example For Learning Java For Intermediate Programmers](#)

King of Hearts - June 10, 2012, 3:56 pm

Hey,
Today I'll release my Tetris game I made in java. It's well organized and easy to learn from. I didn't upload the source but it's easy to decompile it since I didn't obfuscate it.

Features:High Scores using preferences

Scoring and Levels

Shadow/Clone Piece

Choose MP3 To Play In Background

Choose Background Image

Pictures [\(Click to View\)](#)

I suggest you change some settings before playing ?

[Click Here To Download Tetris.jar](#)

As always if you need any help feel free to pm me.

[Also check out my amazing Java Tutorial here.](#)

King of Hearts - May 31, 2013, 3:42 pm

I was looking through my old posts and I found this. I still have the source code for this as I saved it online before my computer crashed. So if anyone wants it here you go (it's unprotected so jad should work fine):

I updated it in the second post and after reading your post in the original post as well.

Toph Beifong - June 2, 2013, 9:31 am

Downloaded as this could offer some good info. Thanks for the share.

mguerchali - September 26, 2013, 4:55 pm

Still open, have plenty of time before I have to start working on some projects.

King of Hearts - November 13, 2013, 4:45 pm

I know this is an extremely old thread, but I was emailed about the file. As you may have seen the file is not online anymore and I thought I had lost the jar.

Anyways, I just found it, so here is the new link. <http://up.ht/1aFluDQ>

SIM-1947090 - November 14, 2013, 11:42 am

Thanks for this,
Will learn from it surely!

Greetings

Swish - November 14, 2013, 2:50 pm

Thanks for posting the download link again, I'll also learn from this!

tips48 - November 15, 2013, 6:20 pm

Thanks for posting, I'll be sure to look at how you did the graphics.

Cyllon - November 16, 2013, 5:15 am

Nice work you have done here ?

Emorpheus - November 17, 2013, 12:16 pm

this is pretty sweet! way to go, i think i'll check out the tut you have for intermediate java.

Homero - November 17, 2013, 8:10 pm

This might help in the future, thanks!

King of Hearts - December 4, 2013, 8:26 pm

Glad you guys liked it. Feel free to add to it and post it here. I know of one or two bugs....

King of Hearts - January 5, 2014, 1:00 pm

I'll get this to the top, if there are some new members who'd be interested in this.

Anttonii - January 5, 2014, 2:31 pm

Thanks for sharing this, this is likely going to teach me something ^_^

Pacina - January 8, 2014, 9:59 am

Thanks for the post plan on starting learning how to do GUIs next I'm sure this will come in handy

King of Hearts - January 8, 2014, 2:33 pm

I'm glad you guys have found this useful.
King of Hearts.

Scal - January 9, 2014, 12:46 pm

About time to start learning GUIs, I'll definitely give this a download and check it out. I'm sure it'll help a lot. Thanks KoH.

HighARc - January 10, 2014, 10:19 am

Thanks for the high quality share! Good to know there is people like you that can teach others!

King of Hearts - *August 2, 2015, 1:43 pm*

So apparently someone grave dug this and asked me to reupload it so here you go:

<http://upx.nz/SbNyrZ>

(This is an older version so sorry about the bugs). You can also easily decompile it.
