Was thinking the same thing as all I do all day is nothing, even when school starts I do homeschool.
I am very willing to help but I do not code.

Stinson - June 11, 2012, 4:32 am

Looks very interesting, good luck! :)

dolores - June 11, 2012, 4:35 am

What kind of pay can we be looking at? Send me a PM.

Salex - June 11, 2012, 4:35 am

well yes,i can use you guys as support personnels in my website - if you are up for it.I need guys online 24/7 anyways.So yea .Besides am sure theres plenty of other things you guys are good at than just keeping a chair warm.Just need to find it :)

Also - i will pm now.Sorry for that.Think i need to buy leet for the box's sake

xerA-> - June 11, 2012, 4:37 am

I am a php(can do simple things in PHP) and VB .NET coder.
I have tons of marketing ideas!
Looking for a income that pays enough for me to buy some things I want.
My skype: gageonhf

Salex - June 11, 2012, 4:53 am

Adding you in skype now,you interest me :) =No homo.Awesome sig btw

Publicity - June 11, 2012, 5:33 am

I can probably help you out in someway for sure, Add me on skype and we can talk later. Skype: Publicity8

Benn - June 11, 2012, 5:45 am

So anyone who helps you is going to be on \$100/day. Sounds to good to be true.

Salex - June 11, 2012, 5:51 am

Added you,keep adding me people. :) Need the coder asap

Benn - no ,depending on how good a job they do,Yes.The level 1 employees- get a pay close to that

Ghost.13 - June 11, 2012, 6:18 am

Deal sounds too good to be true.

However, the only skill I'm good at right now is setting up RATs, which is pretty much skiddy.
Professional Work: I can consider myself one of the best support you can get from here, ofc, with proper orientation.

Pharaohs - June 11, 2012, 6:21 am

I would be happy helping with support. I have plenty of free time. Pm me more details.

Puzzels - June 11, 2012, 6:31 am

Well , i have skills in GFX and communications .

I have a silver tongue , and i am very good at customer relationship management .

Pm me if you think that i will be a valuable asset to your company .

Zeromassacre - June 11, 2012, 6:34 am

My skype is Cafonexyx I can program in python and am currently learning php.

Salex - June 11, 2012, 7:14 am

Guys i do need support personnel :)

For now am working on getting a base site up -for something.Once its up am sure i can hire around 30 support personnels.10-20 marketeers and a lot of think tanks :)

I've responded to all the pm's .Zeromassacre-added you in skype.

The sheer amount of skills here is amazing.Untapped potential lies in this forum :)and am sure if we work together it can be brought to the forefront.To the guys saying 3000 usd a month pay is BS -yes its bs if all you can do is post around in a forum.Show real skill and talent and i'll make sure the dough arrives.

-Max - June 11, 2012, 7:24 am

I am an advanced Python and PHP programmer and I would love to be involved in this. Pm me for my Skype.

I'm interested in part for support, and also marketing. pm me if you want me in the business (:

Bl?ckHat - June 11, 2012, 7:56 am

I've been dying too long to see some opportunity like this to pass up, despite possible fierce competition I'm definitely willing to at least sign up. I'm not much of a coder, but I can be a good marketeer and surely a good support. I'm online pretty much at all times except when I'm sleeping, even though I'm online even then, just not present ;). I'll message you my Skype.

Salex - June 11, 2012, 8:19 am

Alright people i've started hiring people

I've had the gfx/front end = website designing side of the job taken

I need a coder who can work along with him for hte backend side of the job

Next up will be marketeers selection and then support staff -till then keep an eye on this section

P.s -marketeer section will be open to any ass who can drive in people and it will be payed instant.

Wait for website launch for further information

JustinH - June 11, 2012, 8:41 am

VB.net coder here.

Dont know if you exactly need this.

Anyway if you need add skype.

I am intrested my Skype is rockboyc2

Salex - June 11, 2012, 9:04 pm

I will soon be doing the following

- 1.Setting up a base website for all interested people to sign up and interact at
- 2.Making content for 2 new websites (already in talk with coders)
- 3.Laying down my own designs and ideas for a cross platform app i intent to develop and launch by 21 days
- 4.Going across base plans and designs and concepts going to be laid down by others in a week and considering the ones i'll be funding in 10 days from now

Currently am working on the content and making a base design to present to my coders.

I just woke up from a 4 hour nap - I'll be on in around 2-3 hours

Those using msn can contact me directly

perceval.templarknight@hotmail.com is my msn

I wont be on in hf - but hit me up at msn for further talks while i am not online.

Also - add me in skype

Am also in the process of cutting down finances to make sure i have an employ pay rate,making sure we have deadlines ,making sure we keep the party going :).Keep em pm's n talks coming-Do tolerate till we launch a initial website to take things onto the next level

Also in the process of setting up IRC servers and Jabber servers for all employees till a cross platform im app is developed.

xvisceral - June 11, 2012, 9:41 pm

If you need any coders for web stuff, please PM me a description/price you are willing to pay.

LionHeartLow - June 11, 2012, 10:00 pm

Alhalama - June 12, 2012, 12:17 pm

So from what I understood is, that you want to make a forum, with the elite of all hackers, blackhaters, whitehaters and programmers?

Well if you need funds to get it all started, hit me up.

Salex - June 12, 2012, 12:23 pm

Cystomatic- appreciate what you did, Had the courtesy of reading through the stuff.

No its not a plain blunt forum. Investment? Yeah! definitely :) .I've messaged you. Take a look -we should talk. I will explain in detail over there :)

Pixel Crafters™ - June 12, 2012, 2:17 pm

Well, I really do not if i do fit or i'm late in arriving to the party..

here's a short intro bout me..

being a website designer for more than a couple of years & expert in CMS stuff esp Wordpress..

I do have good support experience handling Star Develop Live Messenger for my own website in the past and have good knowledge on the hosting side as well..

if i fit the bills just lemme know by pm.. cheers ?

This is my Big ass friend who has Big ass fucking Money ... i Hope you can make your project huge buddy and as i am also in your future project so i expect some best BAD ASS Coder you get from HF , i know there is lot . I guess you can contact my Big bro [Black Shadow](#) , He is also a good Coder .

Salex - June 14, 2012, 7:14 am

Thank you blackshadow.wasted 600 usd with an ass over company acquisition. Guess i'll just stick to my coders. I will soon update this thread with links to my blogs where updates will be duely handed to my workers and investors. We're in the alpha stages in regards to developing IM clients for team members, Primary website and investor deposit websites -Also having talks with my debit card provider :). Thigns going big. I'll be online for the next 20 hours non stop - So yea all the coders i missed on skype ,the ones currently workign on projects and investors can contact me. I will be on for clearing all queries and business talks.

Zer[o] - June 14, 2012, 10:15 am

I am sure I can help out in somehow. Hit me up via pm and we can chat :)

Mercator - June 14, 2012, 1:33 pm

I own 1 business, have my internet markting team working for another eCommerce business and i am a co-partner in another online business. I have a total of 19 staff that are all either SEO'ers, internet marketers, GFX'ers, social media geeks, coders and data entry at my disposal.

Let me know more info and i'll see if we are a good fit for each other. :)

Merc

Salex - June 14, 2012, 3:16 pm

I have a guy handling the finances of things for a while, but i do need workers so in that aspect i can use you.

For the rest.

1. Am not going to be working on a blog- Just dont feel personal :P - registering a domain now instead

2. Am down to laying a business plan and getting my concepts actually in detailed paper. I'll be

giving it to my chief investor and coders in 72 hours from now so they have a clear idea of what we're getting into

3.Yes ,we'll be open to more investments (I'll explain this once our sites are up)

4.Am still recruiting people - I havent recruited 1/100 of the task force we can use.However very very few people will be making REAL dough (the kind that run into 1000's) We need the rest :) Depending on how good you work,you'll earn more

5.We'll need marketeers next!Am kind of all set n steady with the website coders for now - So keep an eye.Because everyone and anyone can be a marketeer and referrals will be paid INSTANTLY

6.EVERYONE aiming at the support staff job -Please wait ,while i get stuff done-We do need you people,you form an integral part of what we aim at being,but please be patient

7.I've been talking with my chief investor/partner and considering business policies.I cant reveal much on to this aspect.However 10 percent of everything we earn! (thats right,10 straight percent,no strings attached) =Will be going to charity.If you have charities you wish to enlist with us - Let us know and i'll consider them as time passes by.

8.Keep checking this thread.I'll soon ask OMNI to Sticky it.

Thanks for the interest guys-Appreciate whats going on

Gauloises88 - June 14, 2012, 4:09 pm

Hey,

add me on Skype: lizzaran92

I'm definitely the right one.

My skills:

HTML

CSS

PHP

C# Winforms / WPF

vbscript .asp

c# .asp .net

javascript

jquery

I also work as a webdeveloper.

L0ft - June 14, 2012, 5:16 pm

Interested in partnering up.

I have an offline team who develops solutions for banks, they're a solid team and do projects which involve forecasting and what not. Not exactly the best UI/UX but they can bring projects to market. They do custom offline solutions as well (pet hotel reservation and billing system) peanuts though they charged 12k for the work.

My "core expertise" is marketing and I noticed you've recently opened up to looking for marketing partners.

Will be PMing you my Skype add me when you can.

Regards

Salex - June 16, 2012, 2:23 am

Hey All :)

Thanks for the interest.I apologize for the delays we face.Heres current updates

- 1.Will be presenting papers to my Chief investor soon,Startup investment of around 10,000 usd - Sent in parts to meet expenses,not all together
- 2.I will be personally investing close to 3000 usd -Again in parts,as i get paid from my current setups
- 3.We'll be having an ipo model ,initial investor openings for the people of hf/other websites.That wil be made possible,once we can have a set group of concepts and coders we can work with - Thats where i'll truly need initial marketers - You'll be paid referral shares for every investment and top 5 marketers will be hired with a fixed salary for our projects
- 4.I've been on and off a lot -this is basically because of a number of reasons - starting with my pc to my modem to my service provider.However i understand delays are not to be tolerated in business,therefore i'll be online tonight from 4:30 PM GMT to 4:30 AM GMT - Yes thats a total of straight 12 hours, fully uninterrupted
- 5.My coder friends have started their work,domains are up - activated with cloudflare for now but we'll be moving to dedicated servers in 3 days time.If anyone seling hosting/referring hosting websites - would like to show their portfolio ,now is the time
- 6.This ones for those who are good with SE - I've been thinking a lot lately :P - I think those who have experience with SE can have a shot at support staff too,mostly because of their skills with making people understand- however no attempts at fraud/stealing cash off our customers would be tolerated
- 7.Our charity funds will be split into 70:20:10 .This means out of the 10 percent of our income we keep apart for charity 70 percent will go to orphanages that same month,20 percent will be kept apart for disaster/emergency funds and 10 percent will be kept as employee insurance.This means - if someone working with us/our team faces issues in real life / has an emergency including hospital expenses or loans -we'll be helping them a bit.Kind of an interest free loan system.The employee can then choose to pay us back in parts whenever he/she can - and that same amount will be kept in that fund which can then be used to help other employees or donated to charity when we donot have contingency situations
- 8.I have not added anyone in skype lately - neither have i had an actual conversation with anyone yet,mostly because i've been busy.However tonight i'll be on for all your doubts and queries.And yes i defintiely look forward to partnering/acquisitioning couple existing companies that can use a better management and financial setup
- 9.Keep the thoughts coming
- 10.Donot pm me if you cant bother working as a team.I dont care how many posts you have,reprs you have,awards you have.I do respect all members ,but beyond that i respect
 - 1.Intellect
 - 2.Ideas
 - 3.Maturity

- have the 3 and we'll have a smooth time.I wont pay anyone upfront -anyone who works with me knows that i take care of all expenses like hosting,emergency payments and i have a really good platform in the making for the sharing of ideas and developing new products

-Perceval

Angel Beats?? - June 16, 2012, 1:20 pm

Added you on skype and talking to you now.
Posting for future reference.

Salex - June 17, 2012, 2:17 pm

Talked to you.
Novuscorps.org is official company website - Its currently put up with just a base video I like
I'll soon be working on it today and putting it up with my vision, company expansion plans, Employee spots and stuff.

~xXx~ - June 18, 2012, 11:44 am

Hope for your PM.

I am interested in your project.

Salex - June 20, 2012, 4:52 am

Seriously apologize to everyone for the delays
Been having internet connectivity issues.
Am online in Hotmail at ceo@novuscorps.onmicrosoft.com
I'll be using the new ms office cloud integration to get my projects down in paper.
Excpeting 1 of my projects to go up and public in 3 weeks.
Our budgets are close to 3k for now. However am taking investments-If interested contact me
cystomatic!! - get ur ass online when I come :P .Almost done with the conceptual docs. Have to sit with blaine and get it in detail.

Phenomenal - June 20, 2012, 11:34 pm

I would be interested in getting involved in this. PM me more information please. :)

I could invest or do other things. Let me know what is needed.

Salex - June 21, 2012, 2:23 am

Am going to get this one point straight to everyone. This is BUSINESS. Not your high school coding fantasy. So if you apply and get hooked up for a job I expect you to deliver. Money is not a god darn issue for me as long as you deliver what's told to you. There's lots and loads of dough to be made. I know school/job is an important aspect of your lives, but I do expect you to be telling me things in advance.

Our investor spots are up and open. We'll have an official investor deposit website in a week - We're in the process of coding it up. I've been having delays thanks to some school skids taking up projects and not delivering (though my core team took a while off with due notice, and that's fine and fair).

I'll be signing my NDNC contracts with a few guys from here in a week before we make anything accessible to the public just yet. In the meanwhile here's updates

- 1.We're still coding up the base website-it has a forum integration on another end for easier interaction
- 2.All employee's are expected to use MS office cloud integration from today onwards for easier sharing of info
- 3.Our IM client is 70 percent coded and done with
- 4.Our website domain lists will PROBABLY be made public today -Not sure
- 5.Am redoing the finances of the company to avoid any possible flaws.
- 6.The website for investor deposits will be made public only a week or 2 from now due to legal reasons
- 7.If the big boys here have a business proposition, contact me

Once again am going to make this clear to everyone. Do not contact me asking for upfront payments. I don't want a one time do and get lost kind of employee. I treat all my employees as plain bosses and maybe muffin can vouch for that. I don't really bother much if you delay with due notice and make up later. I don't care if you act kiddish too, but I do care if you act like money hungry bastards who cant deliver. There's lots of dough to be made and if you think you're worth it - join us. If not do not add me in Skype and waste my time. If you're looking at a 1k pay per week - act like it!

ConflictedWomble - June 21, 2012, 11:55 am

I added you on Skype, I'm a coder and I also have some interesting ideas you might like.

X-Shadow - June 21, 2012, 12:45 pm

Do you probally have any interest in a decent GFX guy?

Salex - June 21, 2012, 10:49 pm

Yea I need a gfx guy :)

I gave a 100 usd quote to awesome someone off hf last day.He hasn't come through yet.So yea you can jump in and do his job if he delays further

conflictedwomble-i accepted all the new requests,talk to me some time maybe?
Work continuing as usual :)

Bridge - June 21, 2012, 10:55 pm

I am up for support at anytime, or possibly writing content for you.
Let me know if you need anything along these lines.

Alright I added you Skype, can you accept it please?

Salex - June 22, 2012, 4:56 am

One of my employees have blown my mind with a little something he made :)

It'll be up and online tomorrow.Keep checking for updates..

Novuscorps.org will be officially online soon enough

I know we've been delaying a lot,its mostly because we donot want anything wrong to happen with our system

Newly joining employees are giving @novuscorps.onmicrosoft.com id's for better work integration and cloud sharing and yes -we'll be having business licenses .

Theres loads of dough to be made,we'll have our hiring website up - so you can apply and be accepted with your skills faster

For the last time - we don't give free cash,display skill and we do keep you loaded.

So far I've spent over 2k in hf in various projects and paid close to 320 usd to employees and I haven't even started yet.

For the investors - Our site is up and in the making for you people.Please don't invest in HYIP"s :) till you take a look at what we'll be offering.

Angel Beats?? - June 22, 2012, 10:34 am

Soon we will be giving employees @novuscorps.org emails. or maybe @novuscorps.net

Righteousness - June 22, 2012, 12:21 pm

Very interested in this. I added you on skype and look foward to discussing this with you.

Salex - June 23, 2012, 1:29 am

Crossing over 1250 views this thread has now become already close to revolutionary :)

Am glad I could talk to a number of people.Soon our automated hiring website is going to be up :)

Investor site :/ coding is going to be delayed because I really need to be sure of what we're doing before taking anyones money

We've officially hired just about 3 coders and yes theres lots of employeement oppurtunities

I had a wonderful time talking to a guy about our news/bloggging network - Had to go off in between :/ -when he comes online work will resume on that.

This thread might soon be closed,however contact me in Skype :) for conversations

Hardy5 - June 23, 2012, 4:19 am

Good deal, sent you a PM with contact info.

The Novus Corps site is done and will be up very soon.

He has paid me for my services.

WienerNips - June 28, 2012, 9:44 am

I'm extremely interested in this project, and would like to know a bit more. I've added you on Skype, and I am posting here just in case. I am decent with websites and such, and can also have with being a support staff. I can consider myself very mature when I want to be, and I have A LOT of time in my hands.

PM me if I'm any use. Also, pm me more info about your project, so I can find out what else I can help you with.
