Thread: [\[HF Userscript \] Custom Reputation Display Colors \[V 1.0.3 \]](#)

DeNy - June 11, 2012, 10:21 pm

This was done as a request from [Remorsal](#)

As the title suggests, this script allows you to change what color reputation is displayed as.

How to install:I recommend Firefox with the Greasemonkey extension or Google Chrome with the Tampermonkey extension.

Firefox: <http://userscripts.org/about/installing>

Opera: <http://www.howtogeek.com/howto/3986/set-up-user-scripts-in-opera-browser/>

Internet Explorer:

<http://www.ghacks.net/2008/11/16/install-greasemonkey-scripts-in-internet-explorer/>

Google Chrome / Chromium:

<https://chrome.google.com/webstore/detail/dhdgffkkebhmkfjojeimpbldmpobfkfo> then install as firefox would

Script:<http://userscripts.org/scripts/show/135830>

Images:This script adds options in the UserCP.

After changing a color value, reputation will be shown accordingly.

Before:

After:

Changelog:1.0.0 - Release

1.0.1 - Compressed and cross-browser compatible

1.0.2 - Fixed a small bug

1.0.2.1 - Fixed another small bug.

1.0.3 - Added ability to change the background on the reputation display page. Ex:

<https://hackforums.net/reputation.php?uid=47962>

If something isn't working, please let me know in this thread. :)

antigrav - June 11, 2012, 10:23 pm

Wow! Looks amazing. Another awesome userscript! Thanks for contributing so much to HF.

Krule - June 11, 2012, 10:29 pm

Well, it looks decent, but I get the error invalid script header when trying to install. @OP

Lambasoft - June 11, 2012, 10:29 pm

It looks great

I'll wait til the final release

Insanely Chaotic - June 11, 2012, 10:30 pm

That looks quite awesome but I personally don't need it.

Myth - June 11, 2012, 10:35 pm

This looks really awesome man, how long did this take for you to make?

Top - June 11, 2012, 10:44 pm

I changed positive reputation color to #bada55.

Thanks a lot, bro.

redpois0n - June 11, 2012, 10:46 pm

Hahhhahaa will be sure to use this. Make one for usernames to or something ?

Remorsal - June 11, 2012, 10:47 pm

Thank you for fulfilling my request, now I shall return the favor in "Gold Apples" ?

redpois0n - June 11, 2012, 10:52 pm

Also, now I can finally give red apples since I am not ub3r ?

jacobjonno - June 11, 2012, 10:52 pm

This is a verry nice Plugin, Thanks for making and sharing it looks great!

Released. You can install it and it's working perfectly now.

(Jun 11, 2012 10:35 PM)Transform Wrote: [\[CITE\]](#) This looks really awesome man, how long did this take for you to make?

About an hour. Took me about half an hour to find out why it wasn't working with FireFox. xD

Krule - June 11, 2012, 10:53 pm

Thanks a ton! Works great now. :) awesome script.

Ap?? - June 11, 2012, 10:57 pm

Very nice job on the script, Keep up the good work!

Note (Chrome Users)

If you encountering the following popup with the extension:

Code Extensions, apps, and user scripts cannot be installed from this web site.

Fix:

- Code 1. Download Extension to Desktop
2. Open in URL Bar " chrome://chrome/extensions/ "
3. Drag and Drop from desktop onto Chrome Browser.

You're welcome. Any suggestions on other scripts I can make?

Unoticed - June 13, 2012, 9:38 am

Looks nice. Shame these won't work on iPads.

"Rainy. - October 9, 2012, 10:58 am

Thanks for the userscript, I appreciate it :)

Pure (L) - October 9, 2012, 11:21 am

Wow this is sick I'm going to try this now!

M?nster - October 9, 2012, 11:36 am

Looks cool, I am going to check this out now.

Odd Future - October 9, 2012, 11:43 am

You should create a similar plugin that lets us change the color of Uber's and Leet's.

That'd be so much cooler than this.

I'll make it so you can change the color of any user group. I'll make it to ugly after I get done with my work.

Fuego - October 9, 2012, 12:01 pm

Nice script! Just installed it into Google Chrome and it works like a charm!

?

eJaku - October 9, 2012, 12:03 pm

Cool why not, using it now but make the Name color one that's cool too.

What's the point?

What's the point in making anything? Nobody ever sees client side addons.

Volim te - November 19, 2012, 4:41 pm

Pretty useless and a waste of HDD space if you ask me.

That's very cool, Thanks for sharing this with me.

Maxorg - November 19, 2012, 4:49 pm

Seems like a pretty neat script but I won't be using .. maybe in future as I don't really want to now :D

VoidEx. - November 19, 2012, 4:51 pm

Good job Spafic, nice userscript. Changed green rep to red :p

_DeNy - November 20, 2012, 12:55 pm

Updated to version 1.0.3

What's new in this version? Added ability to change the background on the reputation display page.
