Thread: [\[source\] l33t heckler spammer v1.25 \[/source\]](#)

SomeWhiteGuy - June 12, 2012, 11:03 pm

So you guys, I thought I would release the source to my new spammer. I'm just now releasing it but I like the way "1.25" sounds better than "1" so yaaaa.

It's not perfect, I'm still working out sum bugs so if you want it to work best then only use one thread, and I'm still working on the option to not use thread pooling, kk.

Here's a pic:

Hav fun u kids.

RhymeSayers - June 12, 2012, 11:04 pm

You spelled hacker wrong! If you don't spell hacker right than the people who downloads it isn't a really hacker :(

SomeWhiteGuy - June 12, 2012, 11:06 pm

Hecker is what all the l33t kids say gosh get it right.

Deceptive - June 12, 2012, 11:19 pm

Spent some time thinking of ideas for this with him and helping him somewhat along the way. Y U NO USE LISTVIEW!?

Lambasoft - June 13, 2012, 1:27 am

Rofl i never seen a spammer with multi threading ;p when heckers create their spammers they still didn't learned how to multi thread

Whity you got a bad ass spammer over here !

APTO - June 13, 2012, 6:58 am

Oh yes!! i can't wait to download this l33t thing! i'm not a skid i just use other programs! please gimme some moar stuff for free!!!! THANKS you must be l33T!!

SomeWhiteGuy - June 13, 2012, 8:55 am

Thanx everyone for the nice comments. Glad you like.

Meerkat.? - June 13, 2012, 9:43 am

Epic troll is epic. That is all.

Spoiler ([Click to View](#))I seriously hope you're trolling though. If not then you are retarded.

Mayb i am retarded. u jelly? ? ?

Spoiler [\(Click to View\)](#)

It was a troll the whole time, but the source is legit, lmao.

I was just making fun of how people use [tags] in thread titles, change the "version number" to something greater than one even if they are just releasing it, and several other things. It was a troll, but it was also serious at the same time. ?
