Thread: [Fundamentals of Python 2.7 Course. Interactive Tutorial. Not a wall of Text!](#)

Cryptic™ - June 13, 2012, 2:07 pm

First of all.

I'd like to give a shoutout to [-Legacy-](#) For helping me with my Python Issues. He is very good at it.

Thanks -Legacy- :D

I had a little help from my Comp Sci Teacher getting the images.

So I slapped this together

<http://imtiix.net/python/main.html>

Enjoy.

It is beginner friendly, with lots of Screen Shots.

If you need help or your code does not work. Feel free to post it here using the [code] tag and I will fix it.

Johnny Ramone - June 13, 2012, 2:08 pm

Hmm, it doesn't seem to be working for me.

But, when I go on a proxy, it works fine.

I'm not sure why.

My IP isn't blacklisted anywhere. My ISP's Dns translation servers are working fine.

But this course seems to be pretty good.

I highly recommend it.

Cryptic™ - June 13, 2012, 2:09 pm

Start > Run > CMD > ipconfig/flushdns

That should do it.

If that fails <http://imtiix.net/imtiix/python/>

Jaket25 - June 13, 2012, 2:11 pm

Good job! ?

This'll be great to help people who ask the common question; "How can I learn Python?"

Cryptic™ - June 13, 2012, 2:12 pm

Yeah, and if you can't access the site, you probably have MalwareBytes.

Just add an exception.

MalwareBytes refuses to Unblock our IP.

Processor - June 13, 2012, 3:26 pm

Um neither of these are working for me??

Cryptic™ - June 13, 2012, 3:28 pm

Why the hell can't you guys connect.

I don't know why :(..

Make sure your Antivirus/MalwareBytes isn't blocking the site.

This is wierd.

Emereld - June 13, 2012, 3:31 pm

Good job cryp??c

Alot of effort here appreciated

Bookmarked for Sunday afternoon .

jazzycool - June 13, 2012, 5:37 pm

I think thats a lovely book for the starters...and surely for those who have forgotten some points of python....

GOOD WORK !! keep it up>!!

Cryptic™ - June 13, 2012, 6:40 pm

Thank you for all your comments.

I am looking for someone to work with to create more units :D

Netloot.in - June 13, 2012, 7:04 pm

wow this is excellent! If you want a nice wordpress site to publish on I would be happy to set you up!

Cryptic™ - June 13, 2012, 7:16 pm

Oh I know how to set up WordPress, I just need a sexy theme.

ODF - June 14, 2012, 5:04 pm

Interesting Im going to read over all the units although I probably know most of it, Hopefully I learn something new XD

k3y - June 14, 2012, 6:05 pm

Wow this is just pure awesomeness, I plan on creeping on your site until I complete everything you posted on it. Great share

Trump 2016 - June 14, 2012, 7:11 pm

I'm majoring in comp sci at school...this should help me prepare...thank you so much.

Cryptic™ - June 15, 2012, 5:21 am

Great to see you guys find it useful

ki113d - June 15, 2012, 5:30 am

(Jun 13, 2012 02:09 PM)c?????c Wrote: [\[CITE\]](#) Start > Run > CMD > ipconfig/flushdns

That should do it.

If that fails <http://imtiix.net/imtiix/python/>

I don't have a "Start", "Run" nor "CMD"...

:P

Nice job btw, it's is a bit more lively then a black and white screen :D

Cryptic™ - June 15, 2012, 8:23 am

(Jun 15, 2012 05:30 AM)ki113d Wrote: [\[CITE\]](#) I don't have a "Start", "Run" nor "CMD"...

:P

Nice job btw, it's is a bit more lively then a black and white screen :D

Then I guess your using Linux. It works fine for a lot of other people.

Silkie - June 15, 2012, 10:16 am

Great contribution. I'm sure it will benefit a lot of people. If I have some time soon I'll try to help out.

OwnXeD - June 15, 2012, 10:21 am

Hey man, i can't connect.

I get this:

Code Oops! Google Chrome could not find imtiix.net

Suggestions:

Post your code here and I will fix it and show you whats wrong.

Remember to use the [code] tag

Cryptic™ - June 16, 2012, 7:34 pm

It would be nice if you guy's posted on this thread. Most of you are using the site, yet don't post.

Gotta keep the thread alive so more people are aware.

Netloot.in - June 16, 2012, 9:07 pm

I have been using the site. This really is a great contribution.

ven0m - June 17, 2012, 8:12 am

This sounds great.Thanks a lot for your contribution. ?

soeasy - June 17, 2012, 8:44 am

Really nice contribution c?????c.

Btw i would love to help to create new units for your site.

If you are interested,pm me.

~soeasy

PyroStorm - June 17, 2012, 9:24 am

I could help you migrate this to a wiki (I can manage its tech aspect), to make it collaboratively and more easily editable. What do you think?

Cryptic™ - June 17, 2012, 8:52 pm

Thanks, I may be making a Wiki for this soon if I get time.

spokenword401 - June 17, 2012, 10:09 pm

This is awesome! The power of the search is quite amazing in le HF.

Cryptic™ - June 18, 2012, 8:38 am

Yep, I have to say this is one of the best tutorials on HF. :P

Snoopsy - June 18, 2012, 3:55 pm

Never touched Python in my life. I'll go through this and see if it's for me, looks good so far.

EDIT:

Found my first problem.

Was going through Assignment 3 when I hit an error. Can anyone tell me how to fix it?

Code #Assignment 3

```
num1 = input("How high do you want the first number to count up to? ")
num2 = input("How high do you want the second number to count down from? ")
```

```
raw_input("\n\nPress the enter key to start:")
```

```
while num1 > 0:
    num1 = num1-1
    while num2 > 0:
        print num1, num2
        num2 = num2-1
```

This is the output it shows:

Code How high do you want the first number to count up to? 10
How high do you want the second number to count down from? 5

Press the enter key to start:

```
9 5
9 4
9 3
9 2
9 1
```

Cryptic™ - June 19, 2012, 7:45 am

This was my approach to Assignment3.

```
Code countup=input("How high do you want the first number to cout upto?")
countdownfrom=input("How high do you want the second number to count down from?")
```

```
print ("\n\nPress the enter key to start")
```

```
x=0
y=0
```

```
while x<countup:
    x=x+1
    y=countdownfrom
```

```
    while y>0:
```

```
y=y-1
print x,y
```

I'll take a look at your code later on today and tell you whats wrong.

Alside - June 19, 2012, 2:27 pm

Great share I will be using this thanks alot man :P

Snoopsy - June 19, 2012, 3:13 pm

(Jun 19, 2012 07:45 AM)c?????c Wrote: [\[CITE\]](#) This was my approach to Assignment3.

```
Code countup=input("How high do you want the first number to cout upto?")
countdownfrom=input("How high do you want the second number to count down from?")
```

```
print ("\n\nPress the enter key to start")
```

```
x=0
y=0
```

```
while x<countup:
    x=x+1
    y=countdownfrom
```

```
    while y>0:
        y=y-1
        print x,y
```

I'll take a look at your code later on today and tell you whats wrong.
Have you found what was wrong with my Assignment?

Cryptic™ - June 19, 2012, 3:22 pm

(Jun 19, 2012 03:13 PM)Snoopsy Wrote: [\[CITE\]](#) Have you found what was wrong with my Assignment?

Here I fixed your code, and made some modifications

```
Code num1 = input("How high do you want the first number to count up to? ")
num2 = input("How high do you want the second number to count down from? ")
```

```
raw_input("\n\nPress the enter key to start:")
```

```
x=0
```

```
while x<num1:
    x=x+1
    y=num2
    while y > 0:
        y=y-1
        print x,y
```

In your original code, this section was just completely illogical

```
Code while num1 > 0:
    num1 = num1-1
    while num2 > 0:
        print num1, num2
        num2 = num2-1
```

Snoopsy - June 19, 2012, 4:04 pm

(Jun 19, 2012 03:22 PM)c?????c Wrote: [\[CITE\]](#) Here I fixed your code, and made some modifications

```
Code num1 = input("How high do you want the first number to count up to? ")
num2 = input("How high do you want the second number to count down from? ")
```

```
raw_input("\n\nPress the enter key to start:")
```

```
x=0
```

```
while x<num1:
```

```
    x=x+1
```

```
    y=num2
```

```
    while y > 0:
```

```
        y=y-1
```

```
    print x,y
```

In your original code, this section was just completely illogical

```
Code while num1 > 0:
```

```
    num1 = num1-1
```

```
    while num2 > 0:
```

```
        print num1, num2
```

```
        num2 = num2-1
```

Great, thanks! +repped for the troubles.

Phytrix - June 19, 2012, 9:46 pm

Site isn't working for me :/ Probably just me though, will check in again later.

Cryptic™ - June 20, 2012, 7:45 pm

I have PM'd you with how to remove it from MalwareBytes.

Hopefully you were able to get on.

samsepi01 - June 20, 2012, 7:57 pm

Man, the transition from C++ to Python was so simple with this guide! Great stuff! Only thing is maybe put a little starter on how to make and run Python scripts through Linux, as I am running Ubuntu, and since I never used Python before, it took a little bit to figure out how to do it. Great stuff though!

MindOfLogic - June 20, 2012, 8:13 pm

Wow, I looked at your website. I like the tutorials, but I think your website could use some fixing up. Either way, I'm glad you made this website.

Cryptic™ - June 20, 2012, 8:14 pm

Fixing up how so? I have never coded HTML/PHP my self. I usually get someone to design.

I'm bad at that.

MindOfLogic - June 20, 2012, 8:34 pm

I sent you a pm regarding your last post.

Cryptic™ - June 20, 2012, 8:55 pm

Yeah I got them, I will look into having the site redesigned.

If anyone would like to create a template for the site, please let me know

Lime Whips - June 20, 2012, 9:09 pm

I wish I could connect even wen I exeted my Malwarebites still cant :(

Uriel - June 20, 2012, 9:36 pm

Won't let me connect, really want to try this site!

Cryptic™ - June 21, 2012, 7:08 am

I will look into switching this site to a USA host

Ali?s - June 21, 2012, 8:22 am

Thanks this helped me a lot. First lang we're learning in my college course computer science class is python, winning :) I'll deff be prepared and ahead of every one I hope xD

Thanks again ^_^

Cryptic™ - June 21, 2012, 11:17 am

Great to see it helped.

I have added a proxy in the OP for people that can't get on

seawolve1 - June 22, 2012, 4:12 pm

I like your website. Gonna play with it this weekend... thanks for putting it together and sharing. Good job!

Cryptic™ - June 23, 2012, 8:11 am

Thank's, good luck with learning python

ajjt - June 23, 2012, 8:32 am

(Jun 23, 2012 08:11 AM)Cryptic?? Wrote: [\[CITE\]](#) Thank's, good luck with learning python
Which version of python is your website teaching and which version is the most used one?

Cryptic™ - June 23, 2012, 8:38 am

(Jun 23, 2012 08:32 AM)ajjt Wrote: [\[CITE\]](#) Which version of python is your website teaching and which version is the most used one?

As far as I know 2.7.2 is what I'm using, and it's the easiest for people to get started.

In Python 3 there are a lot of changes

Snoopsy - June 24, 2012, 10:36 am

Hey, imtiix.net is currently down. Any idea when it will be back up?

Cryptic™ - June 24, 2012, 8:33 pm

(Jun 24, 2012 10:36 AM)Snoopsy Wrote: [\[CITE\]](#) Hey, imtiix.net is currently down. Any idea when it will be back up?

Back Online.

We were under huge DDOS attack today.

Not just this but my WebHost. <https://hackforums.net/showthread.php?tid=2393712>

Cryptic™ - June 26, 2012, 12:49 pm

post your comments on the tutorial.

I would love to make some improvements

Lover200XD - June 26, 2012, 2:08 pm

Nice pyhton tut :D It's funny to make these games :)

Cryptic™ - June 26, 2012, 8:07 pm

Thanks, glad to see my Tut is helping tons of people

warxform3 - June 27, 2012, 6:36 am

Maan u must do something to save me... I am trying half an hour to get in to ur site. But it's always saying could't find site with that name. I deleted my cookies, i changed browser, i disabled my AV and Comodo firewall, i flushed my dns but nothing's working.. Am i doing something wrong, or i need to do something else?? Please answer me, i am so excited with learning python and i don't want to leave it. Btw, ur lessons are just PERFECT, no word to say just thanks, so simple and easy-learning, but cause i am noob please some words like integer etc. explain them more cause i don't know the english language as good as u. Thanks again and please reply asap. :)

EDIT: I am in now with the proxy, didn't saw that option :P I will download ur pages and saved them to have a backup if something go wrong with the proxy.

Cryptic™ - June 28, 2012, 1:23 pm

Try using fireFox/Chrome.

Or just use a Proxy I guess.

IDK Why you can't get on even with another browser.

You probably have MBAM installed

Scar . - June 29, 2012, 6:12 pm

Very nice tutorial bro. Really helping me out :) I'm a beginner at all this programming and I saw that Python is the easiest coding language for beginners :)

Dmaster_773 - June 30, 2012, 5:20 pm

I guess the tutorial is alright... but if you are programming in idle... save the file as filename.py, the .py will leave all the syntax highlighting

Cryptic™ - June 30, 2012, 5:23 pm

I was assuming they would already know that. I will add that in right now.

Edit: Added at the bottom of www.python.imtiix.net

Lime Whips - June 30, 2012, 9:25 pm

Thanks man I really like how you actually do lessons stuff I wasn't really learning anything from YouTube videos ??

Piracy - July 1, 2012, 2:00 pm

Nice. I'm gonna go through each lesson. This shit's gonna help a lotttt!

Tell me, though. At the bottom of lesson 1, where there's assignment 1:

"3. Will output the following words formed by rearranging the 4 letters from step 2 above: tops, spot, pots, stop"

Did you mean something like

```
Code a="p"
```

```
b="o"
```

```
c="s"
```

```
d="t"
```

```
print a, b, c, d
```

```
print d, b, a, c
```

```
print c, a, b, d
```

```
print c, d, b, a
```

Or something more advanced?

Cryptic™ - July 1, 2012, 8:22 pm

This was my assignment1. It should answer your question

```
Code pp="p"
```

```
oo="o"
```

```
ss="s"
```

```
tt="t"
```

```
v2=2
```

```
v3=3
```

```
v4=4
```

```
v5=5
```

```
print tt,oo,pp,ss
```

```
print ss,pp,oo,tt
```

```
print pp,oo,tt,ss
```

```
print ss,tt,oo,pp
```

```
print v2+v3
```

```
print v3-v2
```

```
print v2,v3,v4,v5
```

antigrav - July 1, 2012, 8:33 pm

It is really quite amazing, although the website design could be a bit easier to look at. I'd design you a new version myself, but I'm still just learning HTML. I'm sure you could find a website builder or maybe ask someone to help you out with design, because I think if it looks better, it'll encourage more people to stay and learn.

Just my opinion, btw. Sorry if it offends or anything.

Cryptic™ - July 1, 2012, 8:42 pm

Yeah I am aware the Design is a bit off.

I'd love it if someone could make a new design.

Just send me the files. :D

Good luck learning HTML.

Lime Whips - July 2, 2012, 12:54 am

I actually got stuck on lesson 2 I couldn't thin of a way to get it to tell them the age difference im noob sorry this is my first time coding

warxform3 - July 2, 2012, 3:50 pm

Hello again man...The problem with ur site is worst than before now ..I am trying everyday about 15-20 to get into ur site but nothing happens.I tried with the proxy but neither with the proxy can.I flushed dns, restart my router, checked-out my hosts.txt to see if there is ur ip or something.Can't understand what is going on and what am doing wrong..Please help me to get through this or give me some pdfs/word(Microsoft Office)/Writer(openoffice)..Thanks brother I appreciate that.. :)

Jayy_x - July 3, 2012, 10:00 am

I'm really interested in joining this, but I can't get through to the site even with different proxy servers. :/

Netloot.in - July 3, 2012, 11:59 pm

The site is down its a damn shame. I can provide hosting.

Cryptic™ - July 9, 2012, 2:18 pm

Site is back online. Sorry for the inconvenience.

PoRt21 - July 9, 2012, 11:08 pm

Good job! mate
tnx nice share

10093210329u892

MaiNoMai - July 10, 2012, 12:38 am

cPickle Rulez .

it's too amazing <.<

Strokes? - July 10, 2012, 5:53 am

It just says "Sup" when I go there.

TheRealaNero - July 10, 2012, 6:07 am

"Sup."

Damn, this really looked interesting.

Cryptic™ - July 10, 2012, 6:40 pm

Yeah the global file got fucked up.

Just use the direct link, <http://imti.ax.net/imti.ax/python/>

Strokes? - July 11, 2012, 8:04 pm

Since this course does not support 3.0 and above is that going to hurt really bad?

Cryptic™ - July 11, 2012, 8:06 pm

(Jul 11, 2012 08:04 PM)MOzzie Wrote: [\[CITE\]](#) Since this course does not support 3.0 and above is that going to hurt really bad?

Python 2.7 is the easiest for first time programmers to get into it.

Once you learn the basics it gets pretty easy, since you have an idea of what you are doing.

Python 3.0 is similar, but it does not support many module that python 2.x uses.

So more people tend to use the 2.x series as more modules are available.

Cryptic™ - August 14, 2012, 8:27 am

Just ing this thread. You guys have forgotten about it.

Go to <http://imtiar.net/imtiar/python/>

yo yo yo - August 14, 2012, 2:27 pm

Thanks, just got my head around lesson 3 :)

ch3micalburn3d - August 15, 2012, 6:21 am

this seems like a great tutorial. should be really useful to expand my python knowledge

Cryptic™ - August 15, 2012, 8:54 am

Nice to see your enjoying the Tutorial.

Cryptic™ - August 16, 2012, 12:44 pm

<https://hackforums.net/member.php?action=profile&uid=1011564> He left onsite proof so he got banned.

Mind Hacker - October 23, 2012, 6:54 am

hahahah what a bellend he got Own3d

zapfen - October 23, 2012, 11:00 am

Nice thing good to learn from, well explained!

Keep up the good work, Thanks :)

Cy3erP0nk - October 23, 2012, 11:57 am

Thanks mate!! This is a very simple and easy to use beginner! :-)

Anonymous6562 - October 23, 2012, 12:24 pm

Thanks so much man. Awesome job! :)

Jire - October 23, 2012, 6:28 pm

Why would you use Python 2.7 when the syntax is completely retarded?

Cryptic™ - October 23, 2012, 6:47 pm

Learning Python 2.7 is great for beginners, it get's them thinking about how to program.

Learning Python before any other Language helps a lot.

You have to realize this tutorial is just for learning the basics. Once you understand the basics you will have an easier time learning advanced / higher level stuff.

Jire - October 28, 2012, 3:15 pm

Once you understand the basics you will have an easier time learning advanced / higher level stuff.The basics of... Python; being that such basics are found in both releases... the conceptual learning is done with either, but why have a syntactical learning completed with a legacy platform?

Cryptic™ - November 2, 2012, 6:45 pm

Anyone interested in re designing the site?

Cryptic™ - March 4, 2013, 8:30 pm

This thread as been dead for so long.

Drunk python - March 5, 2013, 9:15 pm

yet so useful. thanks for the source ;P great for reviewing/learning some things, though you should have covered some oop also.

dada123 - March 7, 2013, 9:13 am

is ur tutorial campatible iwht 2.7.3?

Cryptic™ - September 8, 2013, 7:23 pm

Just b.umping this thread since it's been buried to like page 2000.
