Friend just made a reverbnation account and he could use all the plays/support he can get. If you haven't already check him out here:

My friend is actually pretty good at making music, ya'll should check him out. He's really talented. He makes 90% of the beats he records on. If anyone has a twitter or something with a lot of followers or a Facebook page with a lot of likes and they don't absolutely hate the music it'd be greatly appreciated if you could share it. Even if you don't have a massive twitter/facebook page it'd be cool if you shared it on your own personal one too.

His SoundCloud, Facebook (if you wish to like), Reverbnation & YouTube:

<http://soundcloud.com/skatewilliamz> -- Newer music is located here.

<http://www.facebook.com/Sk8Presley> -- Constant updates on his music.
