Naxxe - June 16, 2012, 8:23 am

Alright, so i made this 1# Niche for every PPD site // Pay Per Download.

And as i don't have time to edit this, i would need someone who would make an ebook for this, right now i got the method saved as txt. file.

Member who would help me, will get the all rights for the ebook, see the thread here for more info:

Sure, why not. I can also hook you up with a simple thread design. In addition, I can provide hosting for any files and traffic from signature and popular threads. I can also provide proof-reading and copywritten advertisement to gain more sales.

If it's the number 1 niche, then we would like to see some of your earnings proof, without that, it's of no use.

I'd gladly do this for you. I have flawless grammar (800 on SAT writing).
