ghostman126 - September 2, 2008, 1:32 am

safe

?

anyone tried it?

TILO - September 2, 2008, 2:18 am

Looks a bit like this one: <https://hackforums.net/showthread.php?tid=23658>, also made by spider.

Tip: 1. make screenshots next time like you did before.
2. tell whether they are safe or not.

But anyway nice packet?.

OH MY GOD! Thank god I read this before downloading.

Who would of guessed "Live_1_[1].Bomber.v3.30.rar" was a booter/flooder?!

"SB-MSN_1_1_[1].0.rar:\server.exe" Who would of guessed server.exe would be used as a backdoor!? ?

Of course this stuff is going to be detected.

Crazydan - September 24, 2008, 7:46 pm

well seeing as the type of download this is of course its not gonna be clean. ignore nitro, he's the type that comments in torrentss saying "omg don't dl this cracked game has a virus" Imfao. well before i dl has anyone got these working?

Infection - September 29, 2008, 4:15 am

of course this will set off your av, think about it for one second, it contains stuff like keyloggers, think about it.

only a total noob would manage to wreck their comp using these progs

<some shitty scan>Do you ever know that this pack includes trojans???

And hacking tools and shit like that. They are showed as trojans/viruses to?

[Chocobro] Nilef - September 29, 2008, 2:31 pm

Lol, Spider, you are obsessed with MSN and the like

martin130 - September 30, 2008, 4:25 am

yeah i have. Great Pack Cheres (Y)

deoxe - October 26, 2008, 4:47 pm

nice i like it alot cool stuff O_o

azn069 - October 26, 2008, 9:55 pm

Doesn't DP stealer/whatever stealer come with MSN Plus ?

TodesKrieger - October 26, 2008, 9:57 pm

Nitro6969, it must be the "govt watching all up in ur interwebz n stuf rite?" lollo.

Gunny - October 27, 2008, 3:47 pm

Oww it's not clean :(kept messing with my system :(

SpydR - October 27, 2008, 6:24 pm

lol keyloggers are trojans dumbass

(srry for the flame but its a freaking hacking tool of course ur AV isn't gonna like it)

but as for the actual program is it safe to use?
i dont want nobody gettin what im stealing ya know

Post the name of the app/s you think are 'unsafe'

Crazydan - October 29, 2008, 8:03 am

one question. the nudge flooder requires a pass so what do i put in there? sorry if its simple or already been answered but i'm stumped.

-spider- - October 29, 2008, 10:23 am

Theres a nudge flooder here.

oh oh thats not good viruses combined lol

kiraitachi - November 14, 2008, 4:16 pm

hey man it's awesome the pack but i have a question do you know any antifreezer for example to go against ice cold reloaded?? i mean if someone can freeze your account with that program(ice cold reloaded) if you know any antifreezer that works (i already heard that use ice cold reloaded against your own account and put defreeze but it doesnt work because is a loop; i say this so you dont say this again because i already try'de it)

booter100 - November 17, 2008, 8:26 am

This is a great pack.
