Thread: [web defacing](#)

balla - June 20, 2012, 11:54 am

What is the latest greatest tool or method to hacking and defacing a website.

Thanks

Pick - June 20, 2012, 11:55 am

C99 Shell, or other shells. Defacing is not just a snap easy. Its actually pretty difficult.

Manually SQLi maybe ?

Havij sucks, it can't even get tables, where I can manually get them.

There are other ways, but SQLi is the only one I know.

Th3PonyWizard - June 20, 2012, 12:42 pm

Brain.dll, and body.xml. You should use them well.

Sqli, XSS, RFI, LFI etc. Also, look for exploits on www.exploit-db.com

Killur - June 20, 2012, 12:53 pm

I think SQLi/LFI are the most Common ways for defacing..

Some tutorials:

<https://hackforums.net/showthread.php?tid=2008347>

And I don't recommend using Havij...

Peace!
