Thread: [Ewhoring Tutorial + vcw help + extra download](#)

aagje323 - June 22, 2012, 4:44 am

Introduction:

Hello guys, I am bringing you a great VCW that originally costs \$25.
This is a great E-whoring setup and I'd like you guys to have it.

The Guide:

Here is the Guide & Readme (also included as a txt file in the pack):

What will we need:

1. Adobe Flash Player 10 Client

This you can download from here: <http://www.mediafire.com/?9xmgjsbl22v6m9p>

Run that and open the .swf file in it.

If it does not work Navigate to the FlashPlayer.pdf file for help.

2. ManyCam (or any other stream cam program.

Manycam is free and easy. You can download it here: <http://download.manycam.com/>

Once you've downloaded ManyCam, I know you will want to remove the watermark.

To do this go to the "effects" tab and choose "text over video" and uncheck "Show ManyCam.com Logo".

How to Setup ManyCam with Adobe Flash Player 10 (if you prefer visuals, navigate to VisualGuide.pdf):

Now lets set up your webcam.

Open your adobe flash player 10 Client and open the .swf file.

You should now see a loop of an e-whore with many actions.

Open your ManyCam up and navigate over to the "Desktop" tab.

In the tab, press on "capture custom desktop area", which is to the left of the Update Rate.

Put the boundaries over the e-whore loop and press ok.

Now you're setup. I know this way is kind of ghetto, but trust me it works.

Now all you've gotta do is make sure that the adobe flash player 10 with the ewhore loop is on top of all your windows (might want to keep the rest of your windows minimized.)

In whatever streaming program you're using look for settings or options and set the webcam device to ManyCam.

Now you are ready.

Go to google.com and look up "Adult Chats."

Find a good one and type in something similar to this:

"19/F/UK Feeling kinky, giving webcam shows \$20 PP for 30 minutes via skype -

<skypenamegoeshere> (No freebies!)"

Modify this to your ewhoring name and your own liking.

When you get the customer, if he wants you to prove your real, you have many actions to use.

Whenever you get the call, press answer with video and make sure to mute your mic.

Now the rest is up to you.

Tip: Remember, you are a girl. Try to spell like a girl, and make the guy think your a girl.

DisClaimer:

I do not take credit for any of this.

I found this online and im giving it to you guys

I do not take responsibility for what anyone uses this for.

As far as I know, this is being used for educational purposes only.

Good Luck!

Hope you enjoyed my guide,

-aagje32

For any help please PM me , Post here ,

Or add me on skype : demicake19 (ewhore account)

For the download links Please Post here.

I will pm YOU if you pm me i wont give you this

(Jun 22, 2012 04:44 AM)aagje323 Wrote: [\[CITE\]](#) Introduction:
Hello guys, I am bringing you a great VCW that originally costs \$25.
This is a great E-whoring setup and I'd like you guys to have it.

The Guide:

Here is the Guide & Readme (also included as a txt file in the pack):

What will we need:

1. Adobe Flash Player 10 Client

This you can download from here: <http://www.mediafire.com/?9xmgjsbl22v6m9p>

Run that and open the .swf file in it.

If it does not work Navigate to the FlashPlayer.pdf file for help.

2. ManyCam (or any other stream cam program.

Manycam is free and easy. You can download it here: <http://download.manycam.com/>

Once you've downloaded ManyCam, I know you will want to remove the watermark.

To do this go to the "effects" tab and choose "text over video" and uncheck "Show ManyCam.com Logo".

How to Setup ManyCam with Adobe Flash Player 10 (if you prefer visuals, navigate to VisualGuide.pdf):

Now lets set up your webcam.

Open your adobe flash player 10 Client and open the .swf file.

You should now see a loop of an e-whore with many actions.

Open your ManyCam up and navigate over to the "Desktop" tab.

In the tab, press on "capture custom desktop area", which is to the left of the Update Rate.

Put the boundaries over the e-whore loop and press ok.

Now you're setup. I know this way is kind of ghetto, but trust me it works.

Now all you've gotta do is make sure that the adobe flash player 10 with the ewhore loop is on top of all your windows (might want to keep the rest of your windows minimized.)

In whatever streaming program you're using look for settings or options and set the webcam device to ManyCam.

Now you are ready.

Go to google.com and look up "Adult Chats."

Find a good one and type in something similar to this:

"19/F/UK Feeling kinky, giving webcam shows \$20 PP for 30 minutes via skype -

<skypenamegoeshere> (No freebies!)"

Modify this to your ewhoring name and your own liking.

When you get the customer, if he wants you to prove your real, you have many actions to use.

Whenever you get the call, press answer with video and make sure to mute your mic.

Now the rest is up to you.

Tip: Remember, you are a girl. Try to spell like a girl, and make the guy think your a girl.

DisClaimer:

I do not take credit for any of this.

I found this online and im giving it to you guys

I do not take responsibility for what anyone uses this for.

As far as I know, this is being used for educational purposes only.

Good Luck!

Hope you enjoyed my guide,

-aagje32
