God I love those domain names. Because it becomes all ironic when you hack 'em.

Haha, nice one :D I see what you mean now

Oats??? - June 23, 2012, 3:07 am

Lmao, nice man.

Nice to see that you didn't deface the main site, I like you.

<3

Very nice. There are several websites like this, extremely ironic.

F-22 Raptor - June 23, 2012, 3:12 am

WOW, it looks very smart secure server!

Glimpse - June 23, 2012, 3:12 am

Haha, that's awesome.

You really should've defaced the index; from what I see, they haven't done anything at all for 5 months.

Do as you wish; you're a wise hacker, Pony.

You have my respect. ?

Will and Integrity - June 23, 2012, 3:17 am

Lol, this made me laugh a little. Made my night on HF haha.

Th3PonyWizard - June 23, 2012, 5:35 am

Sure thing. I wonder why they abandoned the site though.

Lol at that. I actually laughed out loud! Nice work haha.

crossera - June 23, 2012, 5:40 am

hmmm two days ago i saw a program uploading a txt file in a site srsly ... :) not sure if you hacked it or just uploaded it by the program but anyway nice done if you hacked it

What's the program called? Either way, the site is still vulnerable when it shouldn't be. Especially not with a name like that!

crossera - June 23, 2012, 5:55 am

ill try to find it ill wisp you if i find it .. but hmm as im seeing site is abandon or it's new and yea its vulnarable because probably no one is running this site :P:)..

The site itself is perfectly secure (As I can see.. Just a fresh WP Install)

What I did? SQL Root server Cracking all the way~

crossera - June 23, 2012, 6:16 am

hey dude tell me whats that under the site that hass :) XSS SQL ENCRYPTION ENCODING OTHER :0 im just curious cuz you are not the first im seeing having this ill be gratefull if you tell me what is that tnh in advacne and well k nice hack then :P :D

Nordic - June 23, 2012, 6:30 am

Haha, that's just hilarious... Good work!

They abandoned it because it's full of zombies and people with aids.
