For the Iniuria don't you have to get a revalue which requires proof of purchase or you just ask for a revalue not sure.

Did you hack the Iniuria Account?

-forwards You just need to ask, thats what everyone on the forums have been doing, no pictures, no proof no nothing. Its not like at EnhancedAim, I just don't think they want several people to use the same account at the same time.

The Iniuria account was hacked, I have the access to the email which I will change to yours if you buy it.
