Bah. Thanks for making me feel like a total noob. Stuck at level 2 which should be "easy". <.<
I've realized it's string based. I know how many columns it has. But I can't get it to show any information using union select! :(

Level 1 was really easy though! :P

Edit: Never mind. Got level 2 now.
Edit2: Got all 4 levels now. Thanks for the challenge.

Level 2 and 3 aren't the same. Level 2 and 4 seems to be though.

I don't really see how it's a spoiler. It's not like I revealed the answer or anything. I just stated what was obvious. I'll rephrase it it though.

Edit: Better now? Now just remove the original post from your quote, and it's gone! :)
