Thread: [New York, Dispatch Radio for Buses/Cops + VEHICLE ACCESS + TERRORIST ACTIVITY](#)

IIBAN - June 24, 2012, 7:54 am

Operation #FreeSaken.

This time, c0mrade gained access to dispatch radios and whatnot. Once again a great hack by a great hacker.

Vulnerabilities used are in the Pastebin link. Enjoy ?

c0mrade I had to ask...Is there a special way you use?

OT:Great hack mate...You make the hackers' world proud of you

No they are not,...

He|She Probably means by applications like Google chrome and stuff like that..So basically I understood from him|her that he|she was learning dis-assembly,reverse engineering and exploitation of source codes

understood from him|her that he|she was learning dis-assembly,reverse engineering and exploitation of source codesPlease refer to the [OSI model](#), more commonly known as the 7 layers model.

I wasn't thinking about whatever he\she meant, I was generally responding.
