Thread: [89 .GOV + .EDU Vulns.](#)

RULE? - June 25, 2012, 1:32 am

I found these all a couple of weeks ago and i did have a thread where L33T+UB3R could PM me for the list but i did have 100. I had a quick look and removed some that had been patched. Have fun and stay secure. I just wanted to get rid of this list and work on something new. If you don't approve of hacking .gov's or .edu's then that is fine. This is purely to stop people making threads when they are like "OMG I found a .gov vuln br0" - ____ - This should keep you all busy for a while. Please post if any of the links don't work and i will remove them.
