KTHANKXBAI

Serious note: This is not infected or something like that. I just wanted to show people what is happening to this section (all kids releasing their amazing 1337 stuff).

The program works fine, even though it's not threaded. It gathers the ideas from a coding freelancing site: <http://www.workingbase.com/type/C%23-Programming>

No, I did not code this in 20 days. I was bored and coded this in like 10 minutes, if not less. BTW, how's my foreign accent? hahahaha (No I'm not Indian, I was trying to sound like one. I'm actually from Belgium).

Thank you.
