I have no idea. I didn't originally write this guide, I'm just sharing an eBook other people put behind \$harecash for free.

neehosoft - February 6, 2010, 8:11 pm

I got a dynamic IP.

Is this illegal to do? Should i be using a Proxy?

shitsite - February 6, 2010, 8:12 pm

Using a Proxy is illegal, But The administrators have no idea of this exploit. So they're both illegal. Don't use a Proxy. Just increases your chances of getting caught

Dub@|SteP - February 6, 2010, 8:13 pm

It works great thanks =)

1337coderz - February 6, 2010, 8:14 pm
