Thanks a lot! Hopefully if anyone uses these, they'll be sure to give proper credits ^^

The download isn't working for me, though. It said that no servers were available that hosted the download. Could reupload it to multiupload, or something please?

EDIT: NVM it's working now.

It doesnt matter what u like. I got ur soul, so "you" and "everyone else" are on a completely different level. Its like a dog or maybe a raccoon not liking my sigs. ^^

King Kong - February 9, 2010, 7:28 pm

It was on the locked thread at the top of the .PSD section so I suspected it would at least be still useful, thanks for the bad rep because I didn't know this forum didn't update some of there stuff

tigerz09 - July 27, 2012, 2:21 pm
