Thread: [? Illuminati ? Beginner Hacking Live Class! - Join.me - Come join now!](#)

Stev - June 29, 2012, 3:52 am

Whether it's RATing, website hacking, jacking Facebook accounts, we are all interested in Hacking and that's why we joined this forum. We want to take revenge, or make profit with hacking. For the beginners, this forum is a big new world, most don't know where to start or what to do. Well that's what we are for. Illuminati presents to all members on Hackforums (Beginners/Advanced hackers) a Hacking Class for beginners.

How does this work?

A team of Illuminati members will create a join.me session, where we will discuss various hacking topics. (Aimed at the beginner topics). We will give a specific time, and the join.me link will be added to this thread when announced. We have done join.me's before and it can be very chaotic, so if your questions aren't answered yet you can always PM us! The goal of this is to help the beginners as much as we can!

Who's involved?

The team members that will organize everything are the following members:

[Kohsti](#)

[Mr Kewl](#)

Which topics are included?

- RATs, how to use them/tips&tricks, for beginners. We will also include some crypting and how to stay secure tips.
- Using Hacking tools such as booters/bruteforcers etc.
- Website hacking, such as XSS/SQLi
- The rest of the topics are your choice, simply suggest them in a reply and we will discuss them!

Join.me link:

First join.me is over... Next one soon..

Mr Kewl - June 29, 2012, 3:53 am

Okay, I'll be there.

Be present to join our sessions.

oussieeee - June 29, 2012, 4:07 am

il be there !

i think it will help me alot with hacking

im intersted about crypting rats.
and booting+ bruteforcing

i heard you could bruteforce a pc or something

bssbig - June 29, 2012, 4:17 am

downloaded everything you gave

appericiate it so much !!!! ,<33

if i could have +rep'd you for it, i would have gave 3

sadly .. not uber\leet YET

please keep doing those <3

(btw .. any1 managed to use the BS?)

gauge4444 - June 29, 2012, 6:59 pm

bittorrent keeps saying torrent is not valid bencoding, can someone pm me a way to fix this?

P1rat3 - June 29, 2012, 8:50 pm

im interested in the cryptor part so count me in on your next session plz.

Mr Kewl - June 29, 2012, 11:20 pm

If anyone who attended the join.me has any problems with the tools OP has given, Pm me. I will help.

bssbig - June 29, 2012, 11:51 pm

oh i missed the first part, didn't know when it was up, can anyone inform me/pm me when the next session will be up? or how to get notified when thread will be updated by the thread owner?

Aboutmyself22 - June 30, 2012, 12:05 am

I would like to join the next session. How do I do so?
