Thread: [See how you can get uJDB for FREE! \[FUD Java Drive By Generator!\]](#)

??s?? - June 30, 2012, 4:38 pm

Hello members of Hack Forums, uJDB is offering something new for our members who aren't so wealthy. We decided to set up a system to where you refer 2 customers, yes ONLY 2 customers and you will get a free LIFETIME license to uJDB. You must be able to show proof that these 2 people were referred by you in order to be compensated for your effort and hard work.

Simple concept. 2 referrals = 1 free lifetime license.

I'm most likely going to try to purchase this. Looks really nice, and I've been trying to find a good JDB. I'm trying to get the referrals atm though since i'm a little low on cash.

That's exactly why we made the system, haha, glad to see it's working already! :D

Looking forward to having you as a customer bud. :)
