They should its the thread design I bought for the booter

USMC Chris - July 2, 2012, 12:54 am

I like the sample ones. Looks pretty nice. If I ever make a booter, I know who to contact.

Broda - July 2, 2012, 1:06 am

I know this is a booter signature service but could you make me a normal signature. It would be really cool if you could modify this: <https://i.imgur.com/lh8JJ.gif> so it would say "Nuutero's E-mail Spammer" and the subtext would be "Free | G-mail | Hotmail | AOL | Yahoo | iCloud |

I would really appreciate it man!

Text: PortableHacker

Text Color: Bright Green/Light Green with Black outline

BG Color: Black

Animation: shines left to right

would be cool

Dimensions: 3d would be cool but you can do it 2d if its easier for you

Also if you can make it match the HackForums background or have no background that would be cool
