Thread: [\[TUTORIAL\] TEXT ANYONE ANYWHERE FOR FREE.](#)

medanny - July 1, 2012, 10:21 am

I posted this tutorial yesterday and for some reason it got deleted, it was a tutorial section, maybe it was in the wrong section some how, or maybe people think its the same as the other text-free treads but is not.

Whats the difference?

Well, some Careers don't like when you are able to text anonymously and free, so they block the numbers use to text. Well with this method, you get numbers on a daily bases, there is people always checking the numbers don't get block in if they do you can request a new one.

What can I use this for?

Well many things, just to text a friend for free, when you can't reach a phone. Text a family member in another country, or to just scare someone with a anonymous text.

* use your imagination.

Will this work for Mexico?

Yes this method will work for Mexico and Latin American, where Slim don't like you texting people for free he loses cents you know.

*TECEL,UNEFON,IUSACELL,MOVISTAR, and more..

Why don't you just post the tutorial?

Simple I just posted my first Tutorial on how to 300-500 Facebook likes a day, and many people liked it, many people used it, and only a few came back to say thanks now the tread is dying.

*just to keep the tread alive.

So how can i get this method.

Just post here I'll PM you as soon as possible.

if you don't want to wait just feel free to download it from [here](#).

What other people say?

Shin-Akuma Wrote:awesome! the method worked really great, good thing I know spanish :P. cheers mate if you need help around with something don't hesitate to ask.Thanks for your time :)/

yea i use a free texting app right now currently and it gives you your own number tho, but it is only used for texting as far as i know... i believe they're gonna update it so you can call as well but, right now i only use texting... also the good thing is it can also be used on the computer so you can text from your pc and if you really need to text someone or dont have access to wifi on your cell, it is great since you can use the web... anyways here's a link to sign up if anyone's interested.

(Jul 1, 2012 10:21 AM)medanny Wrote: [\[CITE\]](#) I posted this tutorial yesterday and for some reason it got deleted, it was a tutorial section, maybe it was in the wrong section some how, or maybe people think its the same as the other text-free treads but is not.

Whats the difference?

Well, some Careers don't like when you are able to text anonymously and free, so they block the numbers use to text. Well with this method, you get numbers on a daily bases, there is people always checking the numbers don't get block in if they do you can request a new one.

What can I use this for?

Well many things, just to text a friend for free, when you can't reach a phone. Text a family member in another country, or to just scare someone with a anonymous text.

* use your imagination.

Will this work for Mexico?

Yes this method will work for Mexico and Latin American, where Slim don't like you texting people for free he loses cents you know.

*TECEL,UNEFON,IUSACELL,MOVISTAR, and more..

Why don't you just post the tutorial?

Simple I just posted my first Tutorial on how to 300-500 Facebook likes a day, and many people liked it, many people used it, and only a few came back to say thanks now the tread is dying.

*just to keep the tread alive.

So how can i get this method.

Just post here I'll PM you as soon as possible.
if you don't want to wait just feel free to download it from [here](#).

What other people say?

Can't you already do this on phone operator sites already? Like doesn't Tmobile, Verizon, ATT, and others have the send a text option on their sites? Then there are private sites too you can send a message from like ClamTXT?
