Thread: [\[DreamTeam@Tut\]Beating The Google Voice Verification Call\[Trick got busted by Google\]](#)

+Null - February 9, 2010, 2:44 pm

FUCK. REALLY? They already fixed this trick! Within one day, Google fixes this AWESOME hack. DAMNIT!

This is 100% original and tested by me!

Beating The Google Voice Verification Call!

When you sign-up for Google Voice's "Custom Phone Number" account (The are FREE By The Way), they REQUIRE that you add a phone number that must be VERIFIED before you can even begin using the service. Well, lets say you have a number that can't receive calls at that time, or maybe you only want to use it for the FREE SMS feature, or you just want to forward your Google Voice number to your worst enemy and then spread the phone number like butter on toast. Well here is how to beat the verification call that Google sends the number you enter.

(Please note: The call STILL GETS SENT TO THE NUMBER, but you can STIL VERIFY IT EVEN IF THE PERSON WHO ANSWERS HANGS UP, OR IF THE CALL IS NEVER ANSWERED)

Step 1: Enter the number you want to make the Google Voice number forward to.

Step 2: Save the 2 digit verification number they give you (The digit amount my be different for you)

Step 3: Go to <http://www4.spoofcard.com/freecall/agi> and use this guide to fill in the three options:

1. Your Phone Number: Enter your REAL phone number
2. Your Friends Number: Enter the Google Voice number that you choose
3. Number to Display: Enter the number you wanted your Google Voice number to be forwarded to

Step 4: Wait for the phone call. When you get it, answer it and press 1 to accept.

Step 5: You will now here Google Voice asking you to enter the 2 digit Verification Number

YOU ARE ALL DONE!

You see, what we done here was make Google Voice think that either the call dropped when they first called, or that you are just returning their call.

Easy right? I thought of trying it when I wanted to forward one to my friends phone as a prank. Cool huh? Tell me what you think! ?

that looks very helpful, Ill try it as soon as I can get an invite ;-)

Coffee - February 9, 2010, 5:55 pm

hmm let me check this out.

-mothered- - *February 10, 2010, 5:19 am*

I will definitely have to check this out. Seems pretty good.
Thanks mate ;)

+Nulled - *February 10, 2010, 9:55 am*

Thanks guys! Glad you like it!

Far - *February 10, 2010, 10:00 am*

Amazing tutorial, people are going to go crazy over this!

moot9 - *February 10, 2010, 10:12 am*

does any one have a invite? I'd really like one.
