There was a user earlier that had a question regarding the location of these likes, as well as the age. This is important because a client selling Diabetes Blood Glucose monitors based in the USA would not likely have 10k likes from Islamabad, Pakistan and average age group of 18-24.
<https://www.facebook.com/phorusaudio/likes> --Here is an example of a facebook page with an appropriate/realistic likes. Can you please let me know where your likes are coming from? Thanks
