Thread: [Banner request for our new company](#)

Simple3x - July 10, 2012, 5:00 am

So its for fraphost.com

So here's our thread <https://hackforums.net/showthread.php?tid=2664086>

So i need a smaller banner (smaller than my current banner) . So i can add some more text below the banner.

So yeah, i dunno what to put in the banner, lol, maybe you can add stuffs like Reliable Support, Affordable Plans, and 98% uptime.

Your help will greatly be appreciated.

Yeah that's cool, can you jazz it up more ? But yeah, the layout's cool.

And can you make the header FrapHost Webhosting Solutions :) thank you

Oright, this one's cool. Can you like shrink it a bit so i can add some text below my sig ?

And you can make it longer so that fraphost webhosting solution can compress into one line.

And yeah, can you add a litttle bit design in the background say for example a small CPU image wold do.

And can you also change the font color ? :)

Rest is ok. I really want that to shrink a bit
