Thread: [Uncrackable Crackme \(DragonHunter Style\)](#)

idonotcare - July 11, 2012, 3:15 am

Here it is folks, not obfuscated so i wont bother scanning.

<https://dl.dropbox.com/u/19917114/Downloads/Crackme/Uncrackable%20Crackme.exe>

iNViSi8LE - July 11, 2012, 6:52 am

Idiot this is hack server, nothing to crack there.

soft2050 - July 11, 2012, 7:03 am

Whats there to crack in this lol?

PHP Code

```
<?php
```

```
Private Sub Button1_Click(ByVal sender As Object, ByVal e As EventArgs)
```

```
    Interaction.MsgBox(("Downloaded String : " & New WebClient().DownloadString((  
"http://energytools.webatu.com/index.php?action=testlogin&username=" & Me.TextBox1.Text &  
"&password=" & Me.TextBox2.Text)).Trim), MsgBoxStyle.OkOnly, Nothing)  
End Sub
```

Simply showing a messagebox that will generate different results based on website is "Uncrackable Crackme"? Seriously?

HackMutant - July 11, 2012, 7:13 am

Probably he wants us to write our own message box text there, the title is very wrong and its not a crackme. I guess this is your "DragonHunter Style" ?

idonotcare - July 11, 2012, 7:26 am

It shows a correct message if your login details are correct, i could make it different so it performs a task or something similar but that was just an easier to code example, nonetheless its still a valid crackme in the dragonhunter style.

Same reply goes for this thread too: <https://hackforums.net/showthread.php...id24269828> These days crackmes are becoming a joke, i don't bother wasting me my time to solve a so-called crackme unless i really know whoever is posting it.

Yes, you are right, but DragonHunter keeps saying hes protection is secure, and when i asked for a

login he said it doesnt has the function to download the exeucteable.

What a joke.
