Why the hell are you hacking websites and putting a 'love' warrant on it?  
Makes no sense.

I saw you got -repped for this - can't understand that;

Everyone has it's OWN WAY how to deface a Website, iv'e seen far more worst defaces then this one and those guys didn't get -repped.

It's not fair -repping someone just because his deface page doesn't look good ? ..I Would like to neutralise it if i could, but im no ub3r... Greetz, Gee.Gee.

If you wish "Love and peace", don't deface their shit, report the vulns. and unless the website were

from your culture, they won't give a fuck about the message.
