Thread: [\(SLH\) Level 1 2012 For Beginner \(Learn Hacking Proper Way\)](#)

Zero_Luffy - July 11, 2012, 4:27 pm

SLH = (Start Learning Hacking)

Ok, Let goes for the Basic, First I Admit it, I am Noob, but, I am not stupid,

I can Learn for good. I am really Interested in Learning Hacking And, I am determine to do it.

Ok, First I wanted Personally to tell to all New to Hacking, I Think It useless, To want to go directly to do Sql Injection, Xss, or Botnet. setup up rat, or Keylogger, No, that not really the way to do it ..

I was Thinking of Making a Kind of Time table, Thing, I will start from today, and this is going to help me a lot .to Improve myself, and I want to be able to help people Who really Willing to Learn.

Ok , The reason I made This thread Is because Many new members Like, me, Basically, we Dont Know where to start Whenever Happen we Join this forums, There is some Much of Amazing tutorial that you really don't know where you start, you want to try them all, and what Happen is that.. In the end, of day, your Learn Nothing , So, I hope that this is going to guide you,

Chose your Path!!

1 = Black Hat

2= White Hat

3=Grey Hat

If you Dont kNow the difference Between those 3 categories Here the Frist thing, that you should Keep in mind, and Make it your Attitude, I am sure, Many members will agreed with me :

(Use GOOGLE SEARCH)

[Feel free to use it](#)

Basically, Google is Like Gold to Hacker. This is Like a Powerfull tool for Information, Means, anything that you Want to know, Or question, Put in mind like 80% of your answer to these question are found In google so, Dont Hesitate to go for it,

Let Get Back to our Level 1 Hacking, so As i told you earlier before, if you want to become a good Hacker,

@= You should Devote Atleast 5-6 hour a day.

@= Willing to Learn and Motivated should be Patient

@= Always Start with the Basic, Remember tool coded by others will never Make you a Hacker.

First, Basic, you Should Learn Before start Hacking, Its is very Important, you should Have a Level of programming Language, Its always good to learn all Language but, i would say, At least Know the Basic and also you should be able to Master 2 Language properly , this will be a good advantage for you.

Where should i start?

If its the Very First time for you . Start with Easy Language Ok :) I will List it by Orders, and you can chose where you feel easy :)

1- Visual Basic .net/Asp.net

Ok, For me Personally, This is the Basic of Basic This Language is really easy to Learn, It just some quotation and its Mostly easy, to Learn , and fun as well, I would Advise, Most to start with visual basic, because you know many people say that Programming is difficult to learn, or, Annoying but that not really the case , You see you feel Happy , when you be able to code your first tool,

Ok for those who want to Learn about visual basic, I provide Links Like ebooks, Videos, and this Should be able to Help new members, and myself, i still reading, and its really easy to learn in that way,

VB.NET Tutorial (Videos)

Content

Quote:1. Introduction

2. Hello World

3. Variables

4. If Statements

5. Math Functions

6. Form Properties

7. The Progress Bar

8. The Listbox

9. The Radio Button And The CheckBox

10. The Menu Strip

11. Linking Forms

12. Log In Form

13. Text To Speech

14. Splash Screen

15. For Loop

16. Do While

17. Do Until

18. Subs

19. Functions

20. Advanced MessageBox

21. Conditional Operators

22. Logical Operators

23. Timers

24. Sending An Email

25. Emailing Application

26. FTP Upload

27. FTP Application

28. ByVal and ByRef
29. Comments
30. Download and Run File
31. Web Browser
32. Application Settings
33. Using Settings
34. Auto Typer
35. Arrays
36. Splitting Strings
37. Computer Information
38. Try Catch
39. Web Page Source Code
40. Application Updater
41. Website Login
42. Reading Text Files
43. Saving Text Files
44. OpenFileDialog
45. SaveFileDialog
46. Special Folders
47. Get Elements By Tag Name
48. Get All HTML Elements
49. Click Button Without ID
50. Write To Online Text File
51. HttpWebRequest POST Method
52. HttpWebRequest CookieContainer
53. MultiThreading
54. Regex
55. Modules
56. Classes

Links = [Vb Basic and Introduction](#)

These all all Videos for those who are Interested to Learn, I hope that your like it

And for Those, who want e books, which is better, reading is Like self teaching, and this will Help

Links =[Visual Basic 2012 A beginner Guide](#)

And remember use good, You Might find other good ebooks about it on torrent, or other website, so keep search,

Second Language, To be frank, I am not too good on it too, but i will start learning it soon,

C# / C++

Ok, concerning this One I would Advise you to Start with C# , I been having a look to the programming section here , I am Not asking you to, Master c# lol, it would be bulshit, as there are so many other good language and Updated, but Atleast, Know the Basic just the Basic, this is going to Help you, to know more about Programming, and you will be able to move to Other Language .

Here a very good tutorial In hf Itself,

[C# Basic Tutorial](#)

Thanks to = B3cnoc

3 c ++

Quote:After this I think personally you can Start Moving to c++ Language, this is a command Basic Language use everyday. By many people here itself, You can use this Language to Compile code and Make make nice Application such as Crypters, blinders, virus, if u are ethical and if u Master c++ u should be able to make nice tool as well, and Even develop c++ bot, i mean writing your own botnet, this Language is not that easy, but if you Learn it with the basic, and had already got a Knowledge how programming work, it should not be that difficult :)

Here a Links to Have a Documentation About it First and Know about the Basic,

[Click Here](#)

Here Here is a Good Links which is really going to Help you to Learn the basic of c++ And if you feel easy with the Language you can go with the advance, :)

[Basic of C++](#)

Here Links for the ebooks About c++ [Ebook](#)

Still keep search on Google dont forget you Might find good ebooks about it which will Help your more :)

4 pYthon & Perl

These two Language are Basically for People who want, to Learn, Pentesting all Most security tool is being code in these Language , Python is one of the most powerful adaptable general purpose languages.

Perl is Mostly the same, and you got another Language call Ruby Languge, which is generally for the same Purpose,

For Python = [Basic of Python](#)

Atleast Know the Basic and If you are Interested you can move ahead, its good to know these language, specially, if you Moving to learn hacking you should be able to use Linux properly as well. its better.

Perl Programming = [Perl Basic](#)

This one is Use to write script which is really Helpfull sometime, so Check the basic out, which is easy, and if you feel that you are going to use script a lot, when ever Happen you going to hack, then better, be use to it, :) Hope its help,

Use google U might find Nice ebook about it,

Java Programming ,

Well for me this is the Hardest one, but still Not Impossible to learn, People Interested in botnet, would love that, Java bot is know to be very good, who Knows you Might be able to create your Own bot :) if you master it and willing to do it :)

Ok, if you want a Good Introduction what is Java programming and what can you do with this Language

[Click here](#)

Then You can Go Ahead With a Java Beginner Tutorial

[Java Tutorial Beginner](#)

Ok, I think I taken the basic, Language which are important, to Have the Knowledge, Of course there are a lot of others Language as well,

Quote:Remember dont, take programming for granted, you can be a good hacker without know programming, but still you will never be able to develop your own exploit, tool, but if u known programming you be a better Hacker this is the real basic

Once you done this, Make some search on google what can you do, with the programming skill you Learn, Leak to Hacking,

Second Step

Network . Internet .. Security

Many People would say, (why the fuck should i know this? i want to hack)

Actually, You need to Know about the Network, First this Count As the Basic

- 1- YOu need to Know How People are connected together
- 2- How Network and server are connected

Ok, I found something very Interesting Which is going to Complete the Level one of this Thread,

Network Security & Ethical Hacking (CD 1-2-3)

Table of Content

- Quote:
1. Introduction to Information Security & Ethical Hacking
 2. Basics of Networking (Tutorial for beginners)
 3. Introduction
 4. Hacker Vs Cracker
 5. Ethical Hacking
 6. Precautions
 7. Current Cyber Threats
 8. Desktop and Server Security
 9. Windows Security
 10. Hacking into Windows XP, NT
 11. SAM (Security ***s Manager)
 12. Registries
 13. Counter Measures
 14. Linux Security

15. Hacking into Linux
16. Keyloggers - Hardware & Software
17. Anti Keyloggers
18. Trojans or Remote Administration Tools
19. Spywares
20. Viruses and Worms Introduction
21. Classification of Viruses and Worms
22. Examples of Viruses and Worms
23. Countermeasures
24. Anti Virus
25. LAN Security
26. Threats to LAN
27. Countermeasures
28. Network and File Sharing
29. Firewalls
30. Anti Virus
31. Anti Spywares
32. Network Scanners
33. Introduction to Firewalls
34. Working of a Firewall
35. Types of Firewalls
36. Packet Filters
37. Proxy Gateways
38. Network Address Translation
39. Intrusion Detection
40. Logging
41. Network Tools and Commands (Tutorial)
42. TCP/IP Commands
43. ARP Command
44. Trace route Command
45. Netstat Command
46. Finger Command
47. Ping Command
48. Nbtstat Command
49. Ipconfig Command
50. Telnet Command

These are Really really Basic, that you Know know, Before Moving to Upper steps, with a good programming knowledge that you would learn before, remember First programming, Now you can Move to Network,

LEARN ABOUT IT BEFORE YOU EXPLOIT IT

You can Download the Presentation and Tutorial from Here

[Let Learn About Network](#)

Ok This was the Level One completely, Soon will be writing Level 2 too,
I hope personally that this is going to Help All new to this world Where to start and How to start :)

This Had Been written By BigPirateline I hope you enjoy ??

Oh my, thats good for a 13 posts guy! Keep it up dude! (I know that i don't got that many posts to!) XD

Conch - July 11, 2012, 5:02 pm

I'm impressed, excellent job.
Have some +rep :)

SIM-1072338 - July 11, 2012, 6:21 pm

This is really impressive. Although I disagree with you on a few things. I am really impressed with the amount of work and effort you put into this.

Nice man :)

sinxeremes - July 11, 2012, 7:38 pm

Nice bro. keep it up!
thnks!?

70k - July 11, 2012, 8:17 pm

Very nice guide. This is really helpful for the new users as most don't know how and where to start. Great job.

Zero_Luffy - July 17, 2012, 7:29 am

Thanks you very Much , Hope its Helps, when I finish too :) Level 2 coming :) soon

UnFaceable - July 17, 2012, 8:28 am

Dude thx a lot!

I know the basic of c++ and a bit of java, now i'm going to learn python.

Again thx dude, you rock

chano510 - July 20, 2012, 6:17 am

congrats you copy and pasted something ! clapping

tech1337 - July 20, 2012, 6:34 am

(Jul 20, 2012 06:17 AM)chano510 Wrote: [\[CITE\]](#) congrats you copy and pasted something ! clapping*

And you copied pasted that from a notepad file that you made just so you can go around these forums and mass post it to gain nothing but hate. *clapping

Kinda Old - July 20, 2012, 12:45 pm

Very nice post +Rep, you should fix up the grammar a bit though.

Ox3r - July 25, 2012, 4:10 pm

Thanks for this post. That's very good

husky141 - July 25, 2012, 4:45 pm

hey a really good site to learn about programming would be <http://thenewboston.org/tutorials.php> . He teaches you step by step with videos.

R391.875 - July 25, 2012, 6:46 pm

thank u brother 4 this post..

i was confused for last 1 month for this fiels. i dont know frm where to bgin?? bt now i got the idea frm ur thread..thnx dude!!and im very greatful 2u..

LOTS OF LOVE FRM UR INDIAN BROTHER!!

Yugen - July 25, 2012, 8:27 pm

Wow broski this is a very nice a Detailed Tutorial.Great Job :)!

ahmaaaad - July 26, 2012, 7:18 am

thanks a lot

wating level 2

plz make it quick

//>>//>>//>>//>>//>>//>>//>>//>>//>>

the cd dosnt work !!

Zero_Luffy - July 31, 2012, 10:10 am

Thanks you all :)

Achmmmaad I am still Learning Programming :) may be in some Months, Level 2 will be realise still :) if i can Help i will surely do it thanks you

lost_for_words - July 31, 2012, 11:32 am

It's kind of okay, tho the grammar needs fixing.

Zero_Luffy - July 31, 2012, 1:32 pm

Ok, thanks Mate, next time I improve it :)

Freeman-System - July 31, 2012, 2:46 pm

AWESOME! Thank you! It will help alot :)

AmazedMoron - July 31, 2012, 3:52 pm

You say you are a noob but what you presented to everyone here on Hack Forums isn't what a noob would release. I can also tell you wrote it yourself. Good Job man seriously. I also bookmarked this thread and I reckon everyone else should ^^ Covers some critical Information needed to follow certain paths. Very well done. If i could rep, you would get a rep, simple as that. Thank you for this. You opened my eyes on what I should learn In order to do specific things. :-) Cant wait to see some more of your work :)

dbegginer - August 1, 2012, 5:02 am

wow thats pretty good thread.

i am a noob and want to start learning and this trread really can help me start.
good job man

nepsterjay - August 1, 2012, 11:10 am

good work dude!! hope you will master "hacking" with in short period of time.

Zero_Luffy - August 1, 2012, 12:25 pm

(Aug 1, 2012 11:10 AM)nepsterjay Wrote: [CITE](#) good work dude!! hope you will master "hacking" with in short period of time.

Thanks you:) Hope its Helps, i am trying hard too :)

ch3micalburn3d - August 3, 2012, 5:55 am

good explanation ,i am reading through it right now ,hopefully it would give me a better direction about hacking in general and also learn new things

thanks for sharing

Haval - August 3, 2012, 5:59 am

I've got a lot of reading to do.

Great job! This is a must read.

Device1 - August 3, 2012, 10:27 am

Nice work man! By the looks of it it is awesome, I havent read all the way but im about to! Thnks!

G32Virus - August 3, 2012, 12:01 pm

Thanks for this post. That's very good

Zero_Luffy - August 4, 2012, 8:37 am

(Aug 3, 2012 12:01 PM)G32Virus Wrote: [\[CITE\]](#) Thanks for this post. That's very good

Thanks you :) Hops its Help tc all :) ? Level 2 comming soon

PoRt21 - August 4, 2012, 9:00 am

done C#,python,C,VB ;)

tnx bro nice post

r0ot - August 4, 2012, 9:46 am

Thanks for this post, looks helpful.

Dhumti - August 5, 2012, 6:12 am

Very excellent guide to learners of hacking...

Keep continue posting.

jontaon - August 5, 2012, 6:37 am

Great information to beginners. Thanks for contribution to HF. Cheers buddy.

DataBus - August 5, 2012, 3:22 pm

excellent job bro im really impressed keep it up :)

? Ace of Spades ? - August 6, 2012, 12:43 am

really nice share bro keep updating it for constant learning.

CrouchingPotato - August 10, 2012, 3:42 am

thanx, got a better idea of where to start now :D

stifmeister - August 10, 2012, 6:37 am

omg , thank you bro for such great info ... really appreciated for the links ... :)

samrokzz - August 10, 2012, 7:44 am

Nice tutorial dude .Thanks for sharing this .

William - Future Hacker - August 10, 2012, 8:25 am

This is really nice bro! I had a few threads like this when I first joined but they didn't really go over

what you should learn first, Mainly just what things were and what Black, Grey and White Hats were. New comers will love this!

Top fucking work bro! :)

Zero_Luffy - August 10, 2012, 10:41 am

(Aug 10, 2012 08:25 AM)William - Future Hacker Wrote: [\[CITE\]](#) This is really nice bro!
