Trolled here. Well, I ask the same question to OP cause you can't hack anyone man.. If this is legit and we can really hack any1 you should sell each copy for \$10,000 min. not \$11 lol.

in OP you said you can hack anyone. So that surely means if you want to, you can hack me. If I would give my permission, would you be willing to "hack" me? Then I would definitely consider buying it.

Quote:Trolled here. Well, I ask the same question to OP cause you can't hack anyone man.. If this is legit and we can really hack any1 you should sell each copy for \$10,000 min. not \$11 lol.

What do you mean "trolled here"? I wasn't trolling, I was just asking. Not sure why Op was all confused, because that's what he claimed he can do.

I didn't say I don't believe you. I am a possible client, and is that how you answer to people who want to buy your product? Because the questions I asked weren't answered at all.

Well good luck with your sales, I'm turned off by it because you didn't even answer any of my questions.

I Did sent it to them and they made vouch ! Photo Proofs=Showing How To Do It!

- \_\_\_\_-"....I Don't want to keep calling you kid, but that's how you are acting...like being one..

**xvB?** - July 12, 2012, 5:01 pm

You have no proof you can do this. By the looks of it, the vouches seem fishy. If you keep asking people to stop "ruining" your thread, give them what they ask for or you will get absolutely no sales. When you say "hack anyone from any site 70-90% success rates," then you need to prove it.

If you can't prove it, forget making any money from this. Give a vouch copy to someone who is more trusted, more reputable, instead of just any random l33t member. Your best bet would be to submit it to an official reviewer, because currently, most of the people I have saw on this thread have doubts about this methods legitimacy.

Is this a reverting method? Does this include illegal shit( SE'ing etc etc ),

Let your 'possible' clients know about those things.

Also, if I give you a Facebook account to hack, will you be able to hack it? ( I'll be picking it

randomly )

**?PUNK E?R ?G.H.S** - July 14, 2012, 2:47 am

i don't have the time to hack random people, i am just selling the product. Everyone who bought it, vouched for it.

It does include illegal shit, like the most of the methods.

Doesnt include E-whore, ads, and other shits like this.

The Method is fast and really new
