Thread: [\[BUYING\] Buying DED! Shells or HQ Private Shells](#)

Vinster - July 13, 2012, 5:24 pm

Name your price!

^Post here or PM me

Second question - Since I'm kinda new to booters I don't know too much..what are api's? I see a lot of people talking about them.

????s??? - July 13, 2012, 5:35 pm

I wouldn't bother to buy shells, over half of them are public and die quickly.

Exploit your own for the best results, there are a ton of tutorials if you use the search button.

Also, an API in terms of DDoS would be a series of servers combined.

Night Weave - July 13, 2012, 5:58 pm

what about a vps shell all you need is one

shells root¿ or normal hackedhost ?

Tutsu - July 13, 2012, 9:29 pm

this belongs in the marketplace section.. so go there.

?Dunsparth - July 13, 2012, 9:31 pm

This is the wrong section, but yea there is tons of exploits for getting shells.

ItsFluffy - July 13, 2012, 9:37 pm

If you would like to buy vps shells lemme know I have plenty of vouches for my shells
