noone interested?

Liked - February 19, 2010, 8:28 am

Bought this, very good KeyLogger. :)

Great big vouch for gunzee.

hxkd - February 19, 2010, 8:43 am

It looks nice sir, but mine sends logs to php :P It is way more secure than email and/or FTP.

The only things I am missing are; the aints, the USB spreader and the start-up.
